A TALE OF WOE	A TALE OF JOY
A small boy has Sore Throat.	Same boy, a Little older, wiser.
Mother gets the oil can, Soaks a cloth,	Sore Throat again. No lamp oil for him.
Wraps boy's neck.	Heard of TONSILINE.
Awake all night.	School chum used it.
Next morning Throat blistered;	Tells mother,
Raw as beefsteak.	Who pities boy.
Outside so sore,	Buys a bottle, 25c.
Boy forgets inside.	Gives two doses.
Can't turn head for	Sleeps all night.
8 days—sorry	Morning—
They ever struck 'ile.'	Boy wakes up.
He thinks—"Next	Throat all right.
Time I'll keep mum;	One more family
Kerosene worse than	Never without
Sore Throat.	TONSILINE
Don't fool me again."	After that.

TONSILINE CURES SORE THROAT.

Is safe and pleasant to take and quick and sure to cure. 25 and 50 cents. All Druggists.

THE TONSILINE CO., Canton, Ohio

Dr. Fenner's Blood and Liver Remedy and Nerve Tonic.

CURES Biliousness, Constipation, Headaches, Dizziness, Old Sores, Erysipelas, Liver Complaint, Skin Eruptions, Scrofula, "Blues," etc.

For sale by Druggists everywhere. 50c & $1.

ST. VITUS' DANCE A Sure Cure. Send for Circular with Testimonials to M. M. Fenner, Fredonia, N.Y.

For sale by

Z. T. BALTZLY.

LOCAL INVESTORS.

Massillonians Paid Money to Germania Co.

IN HANDS OF A RECEIVER.

The Superior Court, Instead of Dissolving an Injunction Against the Concern, Made It Perpetual and Ordered the Institution Out of Business.

The Germania debenture company, which is about to go into the hands of a receiver, has Massillon investors numbering between seventy-five and one hundred. The Germania company did business in Cincinnati. A representative of the concern spent a portion of last summer in this city, and by holding out great inducements, such as 8 per cent. on the amount paid in, succeeded in interesting many. Some paid $1.50 a month. Many paid more. None paid less. These local investors are wondering whether their money is lost entirely. They find few to give them encouragement.

The Germania company was enjoined from further operations last week. An appeal was made for a dissolution of the injunction at Cincinnati, but, instead of so doing, Judge Jackson, of the superior court, made the injunction perpetual, and ordered the concern into the hands of a receiver. The cases of the National and United States companies, which are in the midst of similar difficulties, will come up Wednesday at Cincinnati.

The investors of the distressed companies number about four thousand, most of whom are of this state. About seven hundred are in Kentucky, Missouri, Illinois and Indiana.

Local investors paid their money at one of the banks, from which it was drawn by the Cincinnati concern. The bankers never thought well of the institution, but were compelled to take the money, which came to them as in a regular channel of business.

ROBERTSON RE-ELECTED.

Republican Marshal Also Elected in Canton.

CANTON, April 1.—James H. Robertson, Republican candidate for mayor, was elected over A. O. Slentz, Democrat, by a plurality of 706. David Reinhart, the present incubent and Democratic candidate for marshal, was defeated by Ed. Bour, the Republican candidate with a plurality of 287. The council will be a tie politically. There were four Republicans and three Democrats to hold over. Four Democrats and three Republicans were elected. J. A. Bernouer, the Democratic candidate in the first ward and the man who did so much work for the shortening of the shifts for the street railway men was defeated by George Good, Republican, with a plurality of 108.

The proposition to bond the city in the sum of $100,000 was defeated by an overwhelming majority. Less than one-third of the votes cast favored the proposition.

TUSCARAWAS TOWNSHIP.

The vote of Tuscarawas township is as follows:

Township Trustee—Brenner, R. 434; Shanklin, D. 301

Township Treasurer—Levers, R. 435; Greber, D. 399.

Justice of the Peace—Minnick, R. 350; Wefler, D. 480.

Knobloch, D. was elected assessor.

OBITUARY NOTICE.

MRS. RICHARD PORTER.

CANAL FULTON, April 4.—Mrs. Richard Porter, aged 65 years, died suddenly Wednesday. Funeral services will be held on Saturday morning at 10 o'clock. The deceased leaves a husband and four children. She was related to Dr. C. F. Porter, of Massillon.

SAMUEL W. CHRISTY.

Samuel W. Christy died at the Massillon state hospital on Monday afternoon from the effects of organic disease of the heart. He was 59 years of age and has been an inmate of the institution for nearly five months. The body was shipped this morning to Congress, Wayne county, where interment will take place.

EUBERN KAHLER.

Eubern Kahler, the 11-months old son of Mr. and Mrs. John Kahler, of 29 Paul street, died this morning. The funeral will be held from St. Mary's church Wednesday morning at 8 o'clock. Interment in St. Mary's cemetery.

A Testimonial From Old England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." It is a great pleasure to the manufacturers of Chamberlain's Cough Remedy to be able to publish testimonials of this character. They show that great good is being done, pain and suffering relieved and valuable lives restored to health and happiness by this remedy. It is for sale by E. S. Craig, Z. T. Baltzly and Rider & Snyder.

COUNTY SEAT NEWS.

Rumors of Suit Against the County Commissioners

CANTON, April 3.—Reports are in circulation that more trouble is in store for the county commissioners. Peter Schissler, to whom the contract for building the foundation of the cottage at the infirmary was granted, will ask the commissioners to pay him out of the county treasury the amount he could reasonably have expected to have cleared on the contract had it been carried out. He said that he estimated his profits at $2,000. The contract for the foundation was let to him at about $9,000, and he hauled some material to the grounds preparatory to carrying out his contract, which he was ready and willing to fulfill had he not been enjoined by the court.

William Lynch, jr., son of Attorney Austin Lynch, while playing with some companions Monday evening, was struck upon the temple with a baseball bat. An ugly gash was cut in his head. An artery was severed and for a time it was feared that serious results might follow, but the severed blood vessel was tied up and the hemorrhage checked.

Lydia Wells has commenced action in common pleas court against the C. T. & V. Railway Company, claiming damages in the sum of $5,000. Plaintiff alleges she purchased a ticket at East Akron for Old Portage, the ticket agent in the employ of the defendant company telling her that the train on which she took passage would stop at that station. The conductor refused to stop at Old Portage, and plaintiff was carried to Hawkins, six miles beyond the point where she desired to go. She was obliged to walk back the six miles, and alleges that the exposure incident to the trip resulted in an illness which has permanently crippled her.

W. J. Steele has purchased the Wise farm, in southwest Canton, for $23,938. This is the farm on which it was proposed to erect a new rolling mill. The purchase may mean the establishment of an industry in that section of the city. Mr. Steele had put up a substantial forfeit when he negotiated for the farm, and had to buy or forfet his earnest money.

Frank Fairfield, who delivers goods for the Ellsworth Brothers' dry goods store, had a narrow escape from death Tuesday afternoon, and as a result of the accident will be confined to his home for some time. He was delivering goods about 6 o'clock when struck by the east bound passenger train of the Pennsylvania railway at the Fifth street crossing. The wagon was wrecked and the horse killed. There are no safety gates at the crossing, and the young man did not notice the approach of the passenger train, which was one hour late and running at a high rate of speed. The horse, wagon and driver were dragged an entire block from Fifth to Fourth street. Fairfield was frightfully cut about the face and head and was badly bruised about the body. He was taken to the office of Dr. Reed, where it was necessary to take sixteen stitches to close the gashes in his face. The horse was Mrs. Ellsworth's driving horse and was valued at $250. The wagon was one of the finest of the kind in the city.

The local lodge of Elks Tuesday night installed the officers elected a few weeks ago, and followed the ceremony with a minstrel show and a social session. A number of the members of the Massillon lodge attended.

The board of health held its annual meeting last night and elected officers for the ensuing year. The salaries of all the officials were increased from five to twenty-five dollars per month. All of the old officers were re-elected with the exception of the food and dairy inspector.

The first account has been filed in the estate of Jacob Shetler, of Bethlehem township.

In the assignment of Henry L. M. Harter, of Tuscarawas township, final account has been filed.

Sunday School Convention.

ELTON, April 2.—The Tuscarawas Township Sunday School Association will meet in convention in McFarren's M. E. church, Elton, April 7. Following is the programme:

Organ Voluntary ..... J. Warren Erb
Easter Lillies ..... Ruth Boughman
God's Care ..... Jane Sherer
Help the World Along ..... Florence Minger
The Church of the New Century ..... M. V. Warner
Light Bearers ..... Homer Warner
Easter ..... Mary Beck
Easter Morning ..... Metta Ricksecker
Valiant for the Truth ..... Zella Warner
We Learn by Doing ..... Grace Oplinger
Thoughts of Eminent S. S. Workers ..... Mrs. M. C. Boughman
Need of Systematic Bible Study in S. S. ..... M. A. Boughman
Life Renewed ..... Ella Boughman
God and His Love to Mankind ..... J. Warren Erb
Address ..... Wm Snavely

Let us make this convention of real interest. Come and suggest something that will be of advantage to us in our year's work. Can you not report some new and good thing your Sunday school has done during the year?

MISS VERDA OBERLIN, Sec.

The Best Blood Purifier.

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at E. S. Craig's, Z. T. Baltzly's and Rider & Snyder's drug stores.

SWORE ALLEGIANCE.

MacArthur Reported Aguinaldo Took Oath.

STILL REMAINS A PRISONER.

Stated In Washington That He Would Not Be Released For the Present. Member of Cabinet Said It Made More Clear Insurrection Was Ended

Washington, April 3.—Secretary Root made public the folowing cablegram to the war department from General MacArthur:

"Manila, April 2.

"Adjutant General, Washington:

"Since his arrival at Manila Aguinaldo has been at Malancan investigating conditions in the archipelago. He has relied almost entirely upon the instructive advice of Chief Justice Arellano. As a result today he subscribed and swore to the declaration on page 11 of my annual report.

"MacArthur."

The oath referred to is as follows:

What the Oath Was.

"I hereby renounce all allegiance to any and all so-called revolutionary governments in the Philippine islands, and recognize and accept the supreme authority of the United States of America therein; I do solemnly swear that I will bear true faith and allegiance to that government; that I will at all times conduct myself as a faithful and law-abiding citizen of the said islands, and will not, either directly or indirectly, hold correspondence with or give intelligence to an enemy of the United States, nor will I abet, harbor or protect such enemy; that I impose upon myself these voluntary obligations without any mental reservations or purpose of evasion, so help me God."

Four asterisks in the cablegram mark a passage withheld from publication, about which the officials will say nothing now.

"Aguinaldo's taking the oath of allegiance," said one member of the cabinet, "emphasises the importance of his capture. It makes more clear that the insurrection has about reached its end and foreshadows the early complete general acceptance of United States sovereignty and authority. A comparatively small number of Filipinos are still in arms, and the effect of Aguinaldo's action on them is obvious. From now on we will press forward, organizing the best government we can, suited to the needs of the Filipinos. Aguinaldo's submission will have a considerable bearing in his favor, in the determination of the matter of what to do with him. That will not be decided for some time, and General MacArthur and the Philippine commission meantime will deliberate carefully over the question before reaching any conclusions."

Related to Future Disposition of Him.

The portion withheld related to the future disposition of Aguinaldo and made suggestions as to what the late chief of the insurrection might accomplish. No official statement could be secured as to what finally would be done with the prisoner, but it was confidently stated that he would be kept for the present, but would be granted all possible liberty consistent with existing conditions. General MacArthur has hopes that a great deal may be accomplished through Aguinaldo. During the time he has been a prisoner he has made quite a favorable impression upon General MacArthur.

It has been suggested that under the terms of the notice of amnesty the prisoner should be set at liberty at once, but there is a provision in the amnesty proclamation which says that those who have violated the laws of war are excepted from its terms. Whether or not General MacArthur has satisfied himself that Aguinaldo has not violated the laws of war can not be stated, as the prisoner would be permitted to take the oath pending an investigation of his past conduct. Aguinaldo, having been the head of the insurrection, undoubtedly can be held until further investigation is made, or until the circumstances which surround the situation in the Philippines make it advisable to release him outright or otherwise dispose of him. These conditions and the general situation and Aguinaldo's relation to them were the subject of General MacArthur's dispatch and are being considered by the authorities here, who will have the final disposition of the matter.

The war department authorities say that offenses against the articles of war, excepted in the proclamation of amnesty, refer to murders and like depredations. Only recently five Filipino officers were executed for such offenses. It is not known here whether Aguinaldo was responsible in any case for such offenses, though from the fact that General MacArthur allowed him to take the oath of allegiance, it is assumed that the commanding general does not hold Aguinaldo to be chargeable with a violation of the articles of war. It is believed General MacArthur will keep the ex-leader under his eye and avail himself of the good offices of Aguinaldo in loyalizing the remnant of the insurgent forces.

AGUINALDO'S DECREE.

Probably Last Before Capture—Ordered Reprisals Against Americans Taken Prisoners.

Washington, April 3.—Copies of what may have been the full text of the last proclamation issued by Aguinaldo previous to his capture by General Funston were received at the war department, where they attracted considerable attention. The proclamation is contained in the Filipinos' newspaper, the organ of the Filipino insurgents, published at Madrid, Spain. It appears in the issue of that paper of March 10, 1901.

A translation of the article contained the following in part:

"According to the censored press of Manila during the month of October only 36 Filipinos in various provinces were hung; the totals for the months of November and December were the same, and during the first 10 days of this month the United States courts martial have condemned to the same inhuman death the following:

"Fifteen in San Isido (Doroteo Noul and his fellow martyrs), six in Tayabas, one in Baloy, one in Bolinao; one in Pagasinan, one in Donsol and three in Tayabas, a total of 28 death sentences in 10 days, according to information given the Manila press by the staff of the enemy.

"In addition to all this, the invaders have committed another violation of the Geneva international treaty by employing against us our own countrymen, who have sold themselves to them, sowing by this atrocious measure the seeds of a civil war, which could very well occur after this war, which is desolating this poor country, if those now counted as traitors should form a regular group and thus making more and more remote the coming of the long sought for peace.

"I protest, therefore, before God and the honorable men of the whole world, in the name of the Philippine people, against such iniquitous measures, and for our own defense.

"I order and command:

"Article 1—All guerrila chiefs, as soon as they capture any armed American citizen, shall take him into the interior at once and shall communicate with the chief of the nearest American detachment, urgently requesting the exchange of prisoners at the rate of one American for every three Filipinos of the many who are condemned to death by them and who expect to be led to execution at any moment, and informing him that he would be responsible for the reprisals which we would see ourselves obliged to take in our just defense. If said American chief should refuse to make the exchange requested, the American prisoners shall be shot, whatever be their number, which punishment is fixed in the Spanish penal code, which we have adopted for those who attack our national integrity, if after four days after the exchange requested the execution of some Filipino sentenced by the Americans should be announced."

To Whom to Show Preference.

"Article 2—Preference shall also be given in exchange of prisoners to deported Filipinos, and to those who have rendered signal service to the cause of our independence.

"Article 3—The promoters of the so-called federal party shall be submitted as traitors to a most summary court martial and those who stimulate the invaders to pursue and prosecute our fellow countrymen who do not wish to identify themselves therewith, shall be punished with special severity, and after those who are guilty have been sentenced they shall be executed and quartered, whether they may be found by any means which may be devised.

"The corresponding general shall see that this decree is fulfilled in the most severe manner, and shall communicate to me the names of those who distinguish themselves in the fulfillment of their duty, with suitable data for special record in these archives.

"Given in the capital of the republic on Jan. 17, 1901.

"E. Aguinaldo."

DEADLY PLAGUE AT FRISCO.

Thirty-two Fatal Cases In Over a Year—Six Deaths Last February.

Washington, April 3.—The plague situation at San Francisco is summarized in a statement, published in this week's issue of the public health reports of the marine hospital service, which is just out. The statement is brief and the facts given in it are taken from the long awaited report of the commission of experts which made a special investigation. This statement shows that there have been 10 cases of plague in San Francisco officially reported since the beginning of the year, all of them being fatal. The number of cases and deaths on each date mentioned are identical. They comprise two on Jan. 15 and one each on Jan. 6, Feb. 5, 6, 7, 10, 11 and 12 and March 2.

The six cases and deaths in February were reported by a special commission appointed by the secretary of the treasury to examine into the plague situation in San Francisco. This commission consisted of Prof. Simon Flexner, of the University of Pennsylvania, chairman; Prof. F. G. Novy, of the University of Michigan, and Prof. L. S. Barker, of the University of Chicago, recorder. Continuing, the statement said in part:

"Plague has been reported in San Francisco officially in the public health reports since March 6, 1900, 32 cases (all fatal) having been reported and published in previous numbers of the public health reports, and the facts were reported in the last annual report to congress of the secretary of the treasury.

"The disease has been confined almost exclusively to the Chinese and an examination of the mortuary records of the latter for the past four years shows that there has been no time during that period when it has increased to such an extent as to in itself cause alarm.

"The prevailing type, so far as known, is of the bubonic form, which, according to M. De Brun, is of a mildly contagious character, but it is undetermined how soon these cases may give rise to cases of a graver and more contagious form of the disease."

JAPAN TALKS WAR.

Other Great Powers Will Remain Neutral.

DISLIKE RUSSIA'S ANSWER

England Will Join Japan in Protest Against Signing the Manchurian Convention—Thirty Thousand Mine Employes are On a Strike in Lanarkshire

LONDON, April 3.—[By Associated Press]—The Yokohama correspondent of the Daily Mail says Russia's reply to Japan's protest against the Manchurian convention is regarded as unsatisfactory, and further vigorous representations will follow. The president of the Japanese house of peers, in the course of an inflammatory speech, openly discussed the probable results of a war between Japan and Russia, and said that Japan could count upon the friendly neutrality of Great Britain and Germany. He declared that the United States would not interfere, and that France would only cause uneasiness by the employment of her Annamese forces and by a naval demonstration off Formoso. This, he predicted, would be the limit of French action, and therefore Japan's vastly superior army would be enabled without great difficuly to drive Russia out of Manchuria.

RUSSIA'S PLANS.

Will Sign Agreement First, Then Discuss Matters.

PARIS, April 3.—[By Associated Press]—It is asserted here, on unquestionable authority, that the Chinese viceroys who have been under financial obligations to England since last summer, have energetically renewed their protest against signing the Manchurian convention and that Japan and England are both going to great lengths in their efforts to secure its rejection.

Leading Japanese newspapers assert that the Russian government has replied to Japan's protest against the Manchurian convention to the effect that Russia does not wish to enter upon a discussion with a third power relative to her negotiations with China; that the proposed agreement is purely temporary and not intended to impair the sovereignty of China or to injure the interests of other powers; that the contents of the agreement, immediately upon its conclusion, will be communicated to the other powers, who will undoubtedly find them acceptable, and, finally, that, if any of the provisions are not acceptable to Japan, Russia is prepared to discuss the matter in a friendly spirit.

TURKEY WILL SETTLE.

Terms Arranged for Paying Old Accounts.

WASHINGTON, April 3.—[By Associated Press]—There is reason to believe that Lloyd C. Griscom, secretary of the United States legation at Constantinople, who is now on his way home, has earned the credit of effecting a final and satisfactory settlement of the American missionary claims against Turkey that have taxed the abilities of no less than three of the ablest ministers ever sent by the United States to Constantinople. It appears now that Mr. Griscom has finally succeeded in arranging with the Turkish government the principle upon which these long standing claims shall be settled, and the pledge of the Turkish government is in such binding form that it is not doubted that payment will be made.

A STRIKE IN ENGLAND.

Thirty Thousand Mine Employes are Idle.

LONDON, April 3.—[By Associated Press]—The strike now on among the Lanarkshire miners and engineers, thirty thousand of whom are idle, owing to a strike for an eight hour day, is having an adverse effect on the iron and steel works in Scotland. Some of the ironmasters have taken steps to damp down their furnaces tonight, while the steel makers will stop their mills.

PATRICK WEAKENED.

He Had Agreed With Jones to Commit Suicide.

NEW YORK, April 3.—[By Associated Press] Charles Jones, valet and secretary of the late William M. Rice, the murdered millionaire, in his testimony today said that at the time of his attempted suicide in the Tombs, Patrick, who is on trial as the murderer, also agreed to kill himself. A strong case is being made against Patrick, cross-examination having failed to weaken the testimony of Jones.

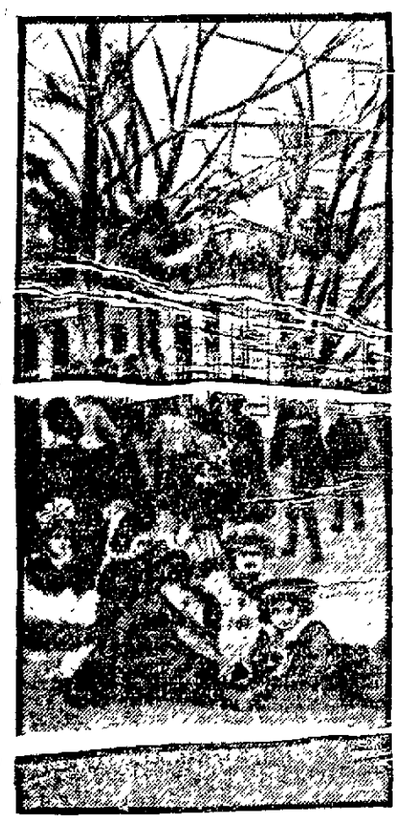
EGG ROLLING AT THE WHITE HOUSE

How the Children Of the National Capital Celebrate Easter Monday

"Goin a-rollin?"

Such is the question that the children of our national capital are asking one another these days, and they say it in a tone of voice that would indicate that "rolling" must be the most delightful occupation possible. And so it is.

Easter Monday, the day on which the youngsters of Washington indulge in



Snap shot by 'Dinst, Washington.

A MERRY GROUP.

egg rolling on the White House grounds, is the greatest day in the year for them, provided that the weather be pleasant. If it isn't, there is no egg rolling and the children must wait for another year, so let us all hope that on April 8 old Sol will put on his brightest aspect.

Egg rolling is peculiar to Washington, although possibly it is practiced in some few other communities. Briefly described, it consists of going to the top of a hill and rolling down the slope gayly painted hard boiled Easter eggs. The game consists in trying to make your egg roll farther than your competitor's. If you succeed, you get his or her egg. If you don't, your own is forfeit. There are variations of the game, such as trying to roll one egg near to or against another, etc. Egg rolling is a very simple game, with few rules, but the amount of fun which children can get out of it is amazing.

On Easter Monday the president of the United States lays aside his official dignity and becomes the host of all of Washington's youngsters. On that day at 9 in the morning the grounds south of the White House are thrown open to the children, and they are free to remain there all day and disport themselves egg rolling or in any other way their fancy dictates.

The origin of the custom of giving up to the children on Easter Monday the White House grounds is unknown. Certain it is that the Washington papers of the sixties speak of it as old then, so it must be very ancient indeed. Until about a decade ago it was the custom to use in alternate years the capitol grounds, but the thousands of healthy, happy youngsters caused so much damage there that it was decided to let them do their fell work there-

Snap shot by 'Dinst, Washington.

AN EGG TRICK.

after exclusively on the grounds south of the White House, known as "the White lot." This plot of ground contains a number of hills peculiarly well adapted to "rolling."

To anybody but the most hardened misanthrope the White House grounds on "egg rolling day" present the most interesting and happy of sights. From all parts of Washington and its environs come the children, of all ages, colors and sizes, most of them provided with baskets of gayly colored Easter eggs and packages of lunch. They come from fashionable Pennsylvania and Connecticut avenues and from Tin Cup alley, from the homes of senators and cabinet officials as well as from the humbler domiciles of negro whitewashers. They come singly, in couples, in droves and in flocks. Some of them are attended by nurses and footmen, some by doting mothers, and some are their own chaperons.

To attempt to draw such a thing as a color line would be an impossibility, so thoroughly mingled are Caucasian and Ethiopian. And above all and over all there is the spirit of equality and democracy. Class distinction and colored skin are alike forgotten, and the children mix and join in one another's games with the utmost freedom. Some French philosopher has said that children are the only true democrats, and nowhere is this better seen than in the White House grounds on "egg rolling day."

A calculation in a recent year placed the number of children at 15,000. Some few of these have no eggs to roll, most have a few, and some very fortunate ones can count theirs by the dozen. These hard boiled destroyers of digestion are not only rolled about the grounds, but they are eaten by the children, and still there is no record of the infant mortality of Washington going up on account of "egg rolling day." The way in which children of tender age stuff the eggs into their mouths is wonderful. Some of the colored youngsters almost seem to swallow them whole.

The children's festival on the White House grounds attracts not only the youngsters, but also many of their elders. For many years it was the custom to have the Marine band, "the president's band," render selections during the afternoon. During Cleveland's administration he decided that

Snap shot by 'Dinst, Washington.

LITTLE EGG ROLLERS.

this attracted too many grown ups, thereby endangering the safety and pleasure of the children, but President McKinley has restored the music, and it forms a very pleasant feature of the day.

During the afternoon many distinguished people, including the president and his family, gather in the south side of the beautiful mansion and watch the children at play. Sometimes the executive head of the United States comes out and speaks to the youngsters, and the rush to get near and see him is great.

Once when Mr. Cleveland came out and walked about the grounds a little colored fellow went up to him, handed him an egg and wanted him to "tap eggs." "Tapping eggs" consists of tapping your egg against the other fellow's. The one whose shell yields first must be given up. China eggs are of course barred. By getting hold of an egg with a particularly hard shell and going about "tapping" some enterprising youngsters manage to accumulate large stores of eggs.

So the day goes amid shouts of laughter from the happy, dusty children. The dust is easily accounted for, since they roll down hill not only the eggs, but also themselves. At sunset they troop home filled with the memories of the happiest day in the Washington children's calendar, leaving the grounds strewn with papers, eggshells and bits of egg. It costs something, of course, to keep the grounds and clean up the mess, but who would begrudge the youngsters the joys of "egg rolling day?"

Good Enough Guess.

"There's more trouble in the Austrian—Austrian—Aus"—

"In the Austrian what?" demanded Mr. Snaggs, interrupting his wife's efforts to pronounce the next word.

"In the Austrian riot stag," she added desperately.—Pittsburg Chronicle-Telegraph.

A REPRESENTATIVE BEAUTY

Miss Arnold, Kentucky's Sponsor at the Confederate Reunion.

Miss Lucy Brent Arnold is just now one of the most envied women of Kentucky, for she has been chosen as "sponsor" or representative of the Blue Grass State at the coming annual reunion of the United Confederate Veterans in Memphis. Each of the states that formed the Confederacy has its sponsor at the annual reunion, and the young woman chosen for the honor is generally considered the most beautiful of her state. To be known as the best looking woman of Kentucky, the very home of feminine beauty, is indeed a distinction.

Miss Arnold is the daughter of Colonel James M. Arnold of Newport, Ky.,

Photo by George Smith, Cincinnati.

MISS LUCY BRENT ARNOLD.

and is descended on both sides from distinguished southern families. On her father's side are the Madisons and Taylors of Virginia and on her mother's the Harts and Talbots. She is a true daughter of Dixie in looks and feeling and is in every way fitted to represent her state.

Colonel Arnold is well known in the south as a veteran of the civil war. He served throughout the struggle in the cavalry and commanded the advance guard of the Confederate army at 24. For the past seven years he has held the office of brigadier general of the United Confederate Veterans of Kentucky.

BREAD AND MAIL.

New Postmaster of Chicago Is a Disciple of Both.

Eighteen years ago Mr. Frederick E. Coyne went to Chicago, at 23 years of age, with the determination to succeed in the west, believing that it offered more advantages to a young man than New Jersey, his birthplace. His first occupation in Chicago was working in a butcher shop, his second the driving of a milk wagon. A few days ago Mr. Coyne was appointed postmaster of Chicago. Chicago's postoffice does the second largest business in the United States, the first being New York. The receipts of the Chicago office during the past year were more than $6,500,000.

Postmaster Coyne is a native of East Orange, N. J. His father was a successful contractor, but lost his fortune in the panic of the early seventies. At 12 years young Coyne left school to assist in the support of a family of 11. At 19 he went west, intending to be a miner, but he gave up this idea when no farther west than Kansas City, and after working for a year in St. Joseph, Mo., he returned to East Orange. On his way back he stopped in Chicago and then determined to make that city his future home. This determination was carried out three years later.

After driving the milk wagon for a short time, young Coyne sold bread on

Photo by Morrison, Chicago.

FREDERICK E. COYNE.

commission. Selling the staff of life he found a pleasant vocation, so much so that he continued in it and is now the proprietor of two restaurants and a great bakery.

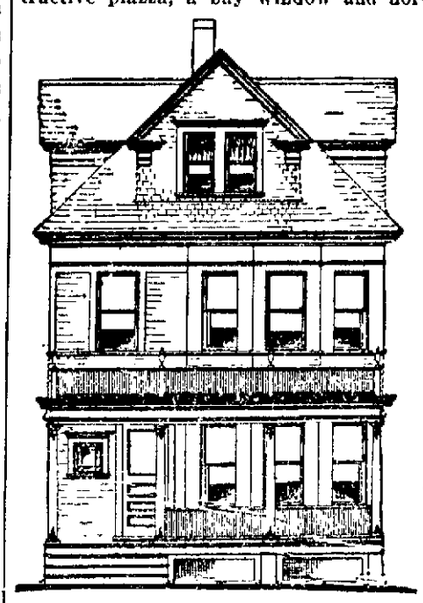
Mr. Coyne has always taken an interest in the politics of Chicago, and his advancement has been slow, but sure. President McKinley appointed him internal revenue collector of Chicago, and before his appointment to succeed Postmaster Gordon he was much talked of as a candidate for the mayoralty. He is a popular man, of domestic tastes. Postmaster Coyne married in 1886 and has four children.

MODERN RESIDENCE.

The Style Is Colonial, and Building Costs, Complete, $2,600.

[Copyright, 1900, by George Hitchings, architect, 1090 Flatbush avenue, Brooklyn.]

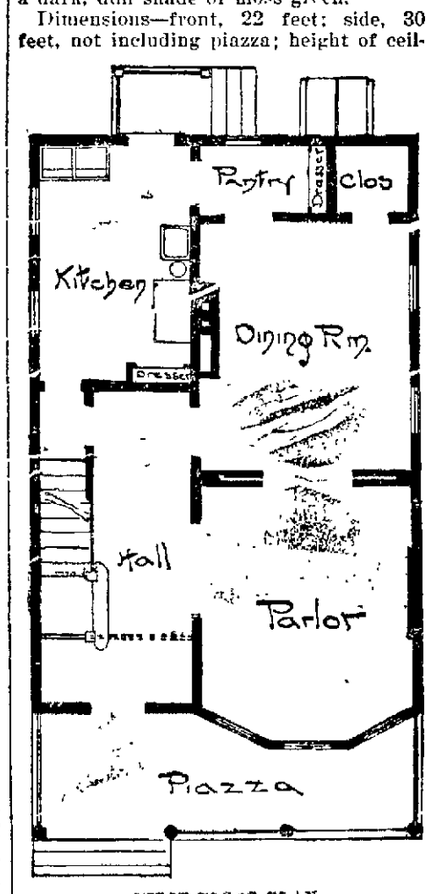
I herewith present a modern residence colonial in treatment. The building is treated in a simple manner, but is artistic in detail. The exterior is provided with an overhanging cornice, an attractive piazza, a bay window and dor-



FRONT ELEVATION.

mer windows on the roof. The underpinning is built of red brick laid in red mortar. The superstructure is covered with sheathing paper and clapboards painted a pearl gray with white trimmings. The roof is shingled and stained a dark, dull shade of moss green.

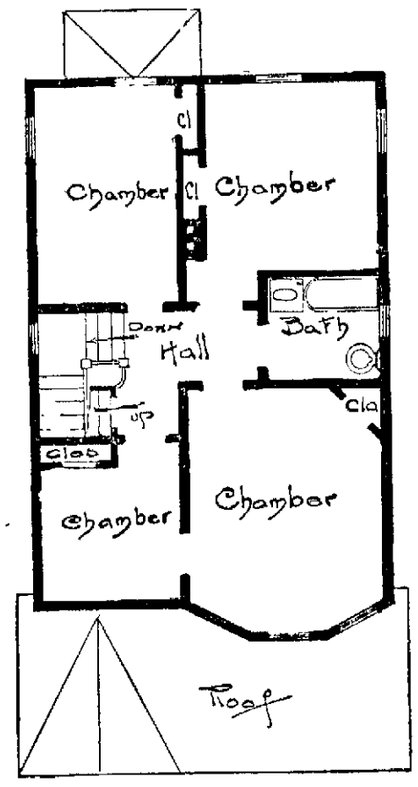
Dimensions—front, 22 feet; side, 30 feet, not including piazza; height of ceil-



FIRST FLOOR PLAN.

ings—cellar, 7 feet 6 inches; first story, 9 feet 6 inches; second story, 9 feet.

The interior arrangement is most excellent. The reception hall is entered through a large quartered oak door with bevel plate glass. This hall is trimmed in oak. The ornamental staircase and the grills in the hall are also oak. The parlor is large and has a wood mantel with bevel plate mirror and a tile hearth



SECOND FLOOR PLAN.

and facings. The dining room also has a wood mantel and a large china closet. The pantry is provided with a dresser with glass doors and drawers below. The kitchen has all the modern fixtures. The second story contains four bedrooms, a bath and ample closet room.

The attic has servants' quarters and a storage room.

Cost to build complete, $2,600.

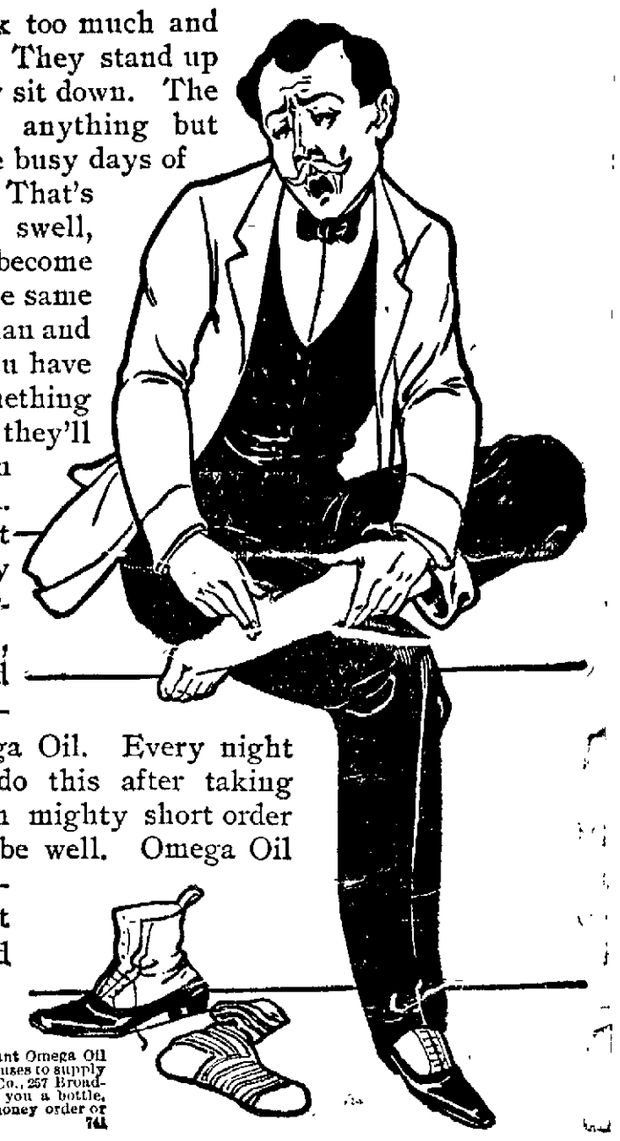
Floor Stains.

For the better class of floorings, such as are used in parlors and dining rooms, there are what are called the oil stains. They require only one coat and no varnishing. They are thinner than the paints, and one quart, costing 50 cents, will cover an ordinary floor. They are to be had in cherry, oak, antique oak, mahogany, walnut and rosewood tints. It is hardly necessary to say it is essential to keep every particle of dust possible out of a freshly painted room if anything like a gloss is expected.—Selected.

A Pretty Boudoir.

A pretty boudoir is finished on a pale blue ground having old tapestry effects, with the patterns worked out to resemble fluffed silk, the depressions shaded down in self tones of blue and bringing out the high lights with the richness of actual upholstery. With this treatment there should be no attempt at ceiling decoration or frieze, the wall being paneled simply and the ceiling finished in a plain ground tint.—Selected.

Omega Oil



People walk too much and rest too little. They stand up more than they sit down. The feet don't get anything but abuse in these busy days of modern times. That's why they itch, swell, burn, ache and become tender. It's the same with the rich man and poor man. You have got to do something for your feet, or they'll keep right on hurting you. If you want a solid, healthy pair of feet to carry you around, rub them good and hard and often with Omega Oil. Every night and morning do this after taking a hot bath. In mighty short order your feet will be well. Omega Oil is good for everything a liniment ought to be good for.

Tell your druggist you want Omega Oil and nothing else. If he refuses to supply you, the Omega Chemical Co., 257 Broadway, New York, will mail you a bottle, prepaid, for 50c. in cash, money order or stamps. 7dl

Dr. H. Lester Kutchin

EX-U. S. EXAMINING SURGEON,

Late of Chicago, Greatest Living Specialist for the Treatment and Cure of all Long-Standing and Difficult Chronic Diseases and Diseases of the Blood and Nervous System. Consulting Surgeon at Maplewood Sanitarium.

Will, by special request, meet his many patients in this county every month for the next year, and examine all afflicted free. Ohio office, Columbus, O.

The noted Author and Medical Lecturer, and greatest living Specialist for the Treatment and Cure of difficult Chronic Diseases, has consented to visit this County and meet his many patients and friends, and give ALL AFFLICTED an opportunity to consult him **Free of Charge** and secure the latest and best treatment for such diseases as the regular family physician is not prepared to treat.

DR. H. LESTER KUTCHIN.

Dr. Kutchin will revisit this County every month, thus saving his patients the trouble and expense of visiting the city. And he is the only physician in this County who carries his own Diagrams to illustrate and make plain to all afflicted the cause and nature of their diseases. He promptly visits his town every four weeks and will so continue as long as God spares him to the afflicted.

CHRONIC DISEASES.

The Doctor treats no acute diseases, but makes a specialty of chronic and long-standing diseases. Cases given up by other doctors and pronounced incurable, he most desires to see. **Dr. Kutchin** has treated over **12,000** cases in Ohio in the last two years, many of which had been given up **as incurable,** some to be Blind, others Deaf, and a Large Number to be Invalids for Life. **Now they See and Hear, and many are on the high road to Health.**

The Doctor is surrounded with a fine collection of instruments for **examining** and treating all chronic diseases of the Head, Face, Eye, Ear, Throat, Heart, Lungs, Stomach, Liver, Kidneys, Bladder, Skin, Brain and Nervous System, Cancers, Tumors, Piles, Swellings, Old Sores, Fits, Paralysis, Neuralgia, Rheumatism, Dropsy, Gout, Sick Headache, Debility, Depression of Spirits, Diseases of Children, Hereditary Diseases, etc., etc., and, in fact, **all long-standing and chronic diseases.** All surgical operations performed.

EXAMINATIONS FREE TO ALL.

Whenever it is known that **Dr. Kutchin** is stopping at a place, **crowds gather to consult him,** and it is not to be wondered at when it is remembered that in diagnosing a disease he never asks a question, but describes the different diseases better than the sick can themselves. It is a **wonderful gift** for anyone to possess, and **Dr. Kutchin's** diagnostic powers have created wonder throughout the country.

He adopted the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, viz.: he carefully notes the symptoms of the patient, and ascertains the condition of the internal organs, all of which he carefully records in his register for future reference. In this way he ascertains the true nature of the disease and its cause. When sick people consult him he readily tells them whether he can cure or help them, or whether they are beyond hope.

HIS IMPROVED METHODS OF TREATMENT

Are mild and pleasant; agree perfectly with the most delicate Lady or Child; do not reduce strength; can be used while at work, and give the greatest possible benefit in the shortest possible time. Patients can consult him or communicate with him as often as they choose, during the whole time required for the cure, without regard to where they may be, and without extra charge, thus rendering the treatment as successful and satisfactory as though they were living next door to each other.

MANHOOD PERFECTLY RESTORED.

Quick, painless and certain cure for Impotency, Lost Manhood, Spermatorrhœa, Losses, Weakness and Nervous Debility, also for Prostatitis, Varicocele, and all private diseases, whether from **imprudent habits** of youth or sexual excesses in mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. **Consultation free and strictly confidential.** Absolute cures guaranteed in curable cases. No risk incurred.

DISEASES OF WOMEN.

Such as has baffled the skill of other physicians and remedies, **Dr. Kutchin** quickly cures. Cancers, Tumors, Fibroid and Polyboid Growths cured without the use of the knife. No cutting, no pain, no danger.

A LIFE OF EXPERIENCE.

The Doctor has had **a whole life** of study and experience in his profession, and enjoys advantages which fall to the lot of but few. After attending his Full Courses in the Medical Colleges, and **graduating with the highest honors,** he was not content to stop there, but has since attended other Colleges, and several times reviewed the whole profession; has also traveled extensively for the purpose of improvement, having visited the best Medical Colleges, Hospitals, Dispensaries, Eye, Ear, Lung and other Medical and Surgical Institutions, traveling thousands of miles, both by land and sea; **expending thousands of dollars;** improving every advantage within his command, and devoting the best years of his life to become thoroughly familiar with his profession in all its branches.

Latest Discoveries and Improvements.

Dr. Kutchin has received the most approved instruction in Analytical and Microscopical Examinations of the Blood, Urine, etc., which are now considered indispensable to a correct diagnosis in many diseases. There are many diseases which physicians in common practice do not usually treat, and are, therefore, seldom prepared with necessary and costly outfit to examine correctly, or treat with success; such cases, therefore, would do well to call at once and learn their true condition and whether the doors of Hope are yet open, or forever closed against them.

FACTS FOR MEN OF ALL AGES.

By reason of **false modesty** the youth of our land are kept in ignorance of the ruinous results which certain solitary indiscreet practices produce. These vices when persisted in eventually undermine the constitution inducing nervous debility and premature decay. **Dr. Kutchin** has for many years enjoyed the distinction of being **the most successful and celebrated specialist** for the treatment and cure of these affections. You may consult him with complete confidence. Of all the maladies that afflict mankind there is probably none about which physicians in general practice know so little.

DELAY IS DANGEROUS.

Many diseases are so deceptive that hundreds of persons have them before they even suspect it. They know they are not well, but are perfectly ignorant of the deadly fangs which are fastening upon them, and must, sooner or later, certainly destroy them, unless rescued by a skillful hand. **Are you afflicted?** Your case may now be perfectly curable, but **Remember,** every moment of neglect brings you nearer its incurable stages, when, perhaps, the most skillful physician can render you no assistance. The present is ours, the future may be **Too Late.**

Epilepsy or Fits scientifically treated and cured by a never-failing method.

Free Examination of the Urine—Each person applying for medical treatment should send or bring 2 to 4 ounces of urine, which will receive a careful **chemical and microscopical examination.**

Persons unskillfully treated by Ignorant pretenders who keep trifling with them month after month, giving poisonous and injurious compounds, **should call and see the Doctor.**

☞ Cases and correspondence confidential. Treatment sent C. O. D. to any part of the United States. Correspondence with invalids solicited. All letters with stamps inclosed answered free. Call and be examined and at least learn the cause of your disease, and if it can be cured. **Tape Worms** removed in from three to five hours without starvation. **The remedies for the whole course of treatment are furnished from the Office or at the Institute, all at once or by the month.**

AT TWO CHURCHES

Large Classes Confirmed on Sunday.

SERVICES OF THE DAY.

St. Paul's and St. John's Churches were Beautiful in Their Decorations of Palms and Flowers—Lists of the Members of the Classes.

The Rev. J. E. Digel confirmed a class of forty-one at St. John's church Sunday. Services in German were conducted in the morning. In the evening English services were held. The church was beautifully decorated with palms and cut flowers. Special music had been prepared by the choir. In the evening Miss Clara Buch sang a soprano solo The services both in the morning and evening were very impressive. The class confirmed will take its first communion on Easter Sunday. The following is a list of the members:

John Genet Maud Hall, Oliver Wock, Edna Geltz, Albert Rhine, Clara Myers, John R Smith, Emma Pinkle, Clarence Geis, Welhelmina Miller, John Voss, Mrs Laura Klein, Mabel Skillcorn, Katherine Seufts, Della Boes, Hazel Fricker, Estella Schmidt, Lillian Knobloch, Myrtle Sands, Louisa Halblaub, Bessie Geis, Florence Moore, Lillian Young, Ralph F. Mannweiler, Elmer Indorf, Oscar Miller, Harold Wagner, Henry C. Rohr, Earnest Blumenauer, Charles Leading, John Dogan, Charles Neisel, Alfred Snyder, William Fuchs, Clarence Slicker, Harry Stark, Robert Keller Walter Lamb, William Lamb, Melville Wagner, Melville Schworm,

AT ST. PAUL'S CHURCH.

Confirmation services at St. Paul's church were held on Sunday morning at 9 o'clock by the Rev. L. H. Burry. The order of service was as published in Saturday's INDEPENDENT. A large congregation was present. Members of the confirmation class were as follows:

Wm. H. Ziesmer, Carl L. Buehl, Frederick H. Snyder, George Schaar, Emil E. Migge, Carl A. Kemp, Walter S Burandt, Alvin A. Puegner, Herbert E. Kratsch, Edward F. Crookston, Wm. T. Heather, Theodore J. Herrmann, Edward J. Tuljetzki, Carl A. Ehmer, Edward F. Migge, Mae Paulus, Amelia G. Fischer, Gertrude J. Burry, Caroline E. Schindler, Pauline E. Gfeller, Hedwig L. Ziesmer, Elizabeth Maier, Ada A. Snyder, Mathilda Schaar, Mary M. Sandmann, Ida M. Kruschinski, Hermine Ramsaier, Emma I Drage, Augusta W. Golouska, Mary C. Domro, Minnie L Feil, C. Hermann Radtke.

COUNTY SEAT NEWS.

John McDade Sentenced to the Workhouse for Embezzlement

CANTON, April 1.—The contest in the local election is a very hot one and the voters were out early in the morning The vote promises to be an unusually heavy one for a municipal election There is a great deal of scratching of the tickets, and the result is impossible to predict.

There is no court in either room today Tuesday both rooms will be open as usual.

John McDade was arrested on Sunday charged with embezzling $18 from Frank Hambleton, the proprietor of an installment house, and was sentenced to pay a fine of $50 and the costs and to spend thirty days in the county workhouse McDade had sold goods for Hambleton, by whom he was employed, and had failed to turn in the money. He came to the store Sunday afternoon and was met there by the proprietor. He was taken by Hambleton to the office of the mayor, near by, and Mayor Robertson was called. Within fifteen minutes McDade was on the way to the workhouse.

The Grand Army band of forty men, with Knoll and McNeal, have been engaged by the Elks, of Tacoma, Wash., to furnish music for the Elks' carnival, to be given August 14 to 24, inclusive. The band will leave Canton on Aug 9, and will go by the way of the Northern Pacific. They will have special cars on the trip going and coming. The organization is a favorite in the northwest, having played in Spokane in October, 1899. On the return trip members of the band will stop in Spokane, where a reception will be tendered them.

Final account has been filed in the guardianship of Mary E. Shook, of Lawrence township.

In the estate of Jacob Killinger, of Jackson township, the sixth account has been filed.

The widow elects to take under the law in the estate of E. O. Baughman, of of Sugarcreek township.

THERE WAS NO MYSTERY.

Miss Fals Left Coshocton to Visit Her Parents.

Columbus papers say that Miss Grace Fals has mysteriously disappeared from Coshocton, where she was employed as an operator in a telephone exchange. Inquiry in this city elicits the information that Miss Fals, who is a daughter of Mr. and Mrs. Joseph Fals, of 99 Park street, has been in Massillon since Saturday. She resigned her position with the telephone company, and there was no mystery whatever about her leaving Coshocton.

For Over Fifty Years

Mrs Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums allays all pain, cures wind colic, and is the best emedy for diarrhœa. 25c a bottle.

Do you read the want columns daily?

A GENUINE ROMANCE.

A Glass of Spilled Milk Proves an Instrument of Cupid.

Mr. and Mrs. Earl W Henning are expected to arrive in this city this afternoon from Williamsport, Pa. They will reside here. Mr. Henning is connected with the office force of W. R. Harrison & Company. Sunday papers printed the following dispatch from Williamsport.

"A quiet wedding at Christ Episcopal church this afternoon completed a genuine romance. The contracting parties were Miss M. Ethelwyn Fisher, of this city, and Earl W. Henning, of Massillon, O The Rev. E. W. Eckel officiated. Mr. Henning is a member of a farming implement manufacturing company. Last fall he visited Williamsport and was a guest at the City Hotel, where Miss Fisher was employed. While a meal was being served Miss Fisher accidentally overturned a glass of milk, and a portion of the contents bespattered the clothing of the stranger. Miss Fisher was greatly embarrassed at the mishap, but apologized in such a graceful manner that the heart of the manufacturer was pierced by Cupid's arrow. He sought the landlord and gained the acquaintance of Miss Fisher. Within a few days the pair were good friends. After Mr. Henning went West a constant correspondence was maintained between him and Miss Fisher. On Friday Mr. Henning came to Williamsport and the wedding was hastily arranged. Miss Fisher is an orphan, is exceedingly pretty, and is finely educated."

The Best Remedy for Rheumatism

QUICK RELIEF FROM PAIN.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs Geo F. Parsons & Co., druggists, of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by E. S. Craig, Z. T. Baltzly and Rider & Snyder.

FACTORY CLOSED DOWN.

Table Company's Workmen to Have a Two Days' Vacation.

The works of the Ohio Table Company have been shut down, and operation will not be resumed until Wednesday morning. It was the intention of the company to allow the men to have Monday off on account of the election, and as the boilers needed repairing it was an opportune time to take another day and do the work. The company, in the early part of this month, will double its capital stock

"I have been troubled with indigestion for ten years, have tried many things and spent much money to no purpose until I tried Kodol Dyspepsia Cure. I have taken two bottles and gotten more relief from them than all other medicines taken I feel more like a boy than I have felt in twenty years." Anderson Riggs, of Sunny Lane, Tex. Thousands have testified as did Mr. Riggs Chas W Cupples, 139 W. Tremont street Rider & Snyder, 12 E Main street

ABOUT SIXTY CONVERTS.

Meetings at the First M. E. Church Successful.

The last of the special services which have been in progress at the First Methodist Episcopal church for three weeks past, was held Sunday evening. The revival resulted in the conversion of more than sixty persons, thirty-eight of whom are probationers. Miss McNutt, the evangelist who assisted Pastor Wilson, left today for Plainfield, Coshocton county, where she will work this week and then return to Cleveland.

CONTRACT FOR MILL.

It was Let Saturday to A. F. Wendling, of This City.

The contract for the new flour mill to be erected by M. Neal, was Saturday let to A. F. Wendling, and the construction will be commenced this week. The building will be of brick and stone, and will be four stories high.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

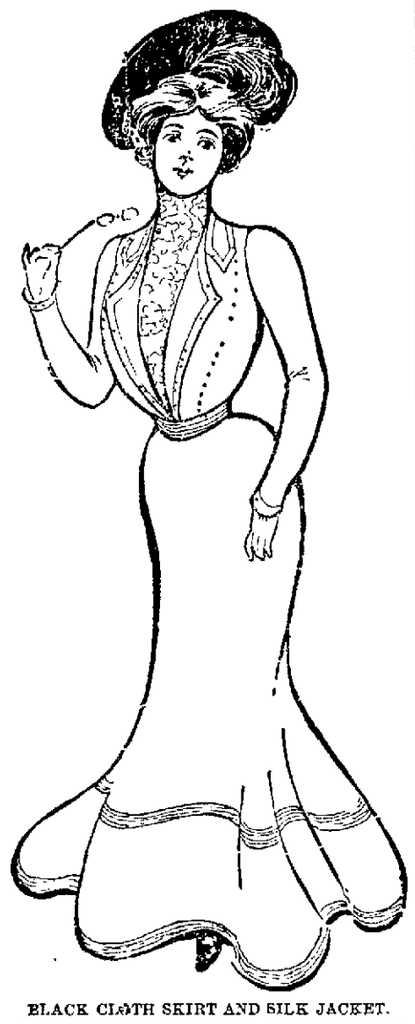
Home of Swamp-Root.

NEW NOTIONS IN GOWNS.

The Postilion Back Is the Latest. Tailor Made Silks.

A novel feature in dress is the tailor made gown of silk, which is a French fancy, of course, but a very attractive one. For church and calling costumes it is certainly an acquisition to any wardrobe. Taffeta, peau de soie and medium heavy grosgrain silks in black form the imported models, and stitched bands are quite as much in evidence here as on the cloth gowns. A black silk jacket with a black cloth skirt is very good style, or you may reverse the order and have a bolero of cloth with a black silk skirt.

The problem of choosing a model for your tailor gown is almost as perplexing as the neckwear variations. It is impossible to set forth any one characteristic as a leader, since there are so many styles, but the little postilion back, variously shaped, is distinctly one of the features, while the Eton coat, minus both collar and revers, is another one. Rows of stitching, rows



BLACK CLOTH SKIRT AND SILK JACKET.

of braid and narrow bands of embroidery are the modes of finishing the edges of these very desirable little coats, which will be shown to the best advantage in light colored cloths worn over a dainty lawn blouse.

The postilion is attached to the back of some of the Etons which meet the waist line Again the coat has a belt or a semblance of a belt from which this little appendage falls, and it takes the form of a narrow side plaited frill or two narrow tabs.

Revers and collars are plain or fancy, as you wish, covered with either embroidery or stitching.

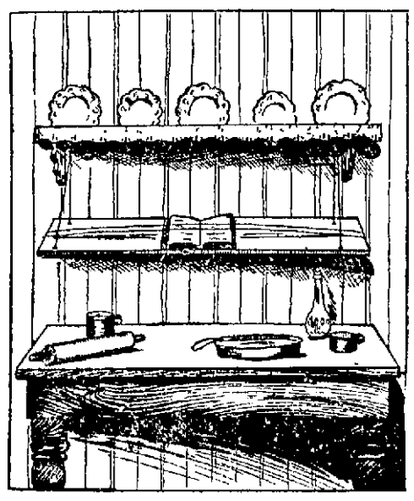
Some of the fancy jackets have the elbow sleeves with undersleeves of the same material, but the popular sleeve for the more simple form of tailor dress is the coat sleeve, which flares a little in bell shape at the hand

Among the dressy gowns shown in the early models brought out for summer use are some very exquisite confections in white bereze, a silk and wool material very fine and sheer. It is made both over white and colored linings and displays a great variety in trimming. Tiny ruches of the bereze trim one dainty gown in a scroll sort of design above three gathered flounces finished with a ruche on the edges. This is especially pretty for an evening dress to wear in the south, and with a lace guimpe and elbow sleeves it is transformed into an afternoon gown for summer wear.

The foregoing are among the newest styles as presented by the New York Sun.

For the Novice at Cookery.

I have in my kitchen a device for holding my cookbook open for reference as I work at the table beneath the kitchen shelf. It has proved very convenient for a novice at cookery, says a correspondent of Good Housekeeping. A board having a narrow strip nailed



A CONVENIENT DEVICE.

along its edge to keep books from slipping is suspended in a slanting position by wires fastened to the underside of the shelf in the kitchen. My cookbook or recipes rest on this at just the right height for my eyes to read as I work at the table beneath the shelf. A strip of tape runs across this board and holds the book open at its proper place.

Outing hats in bright red felt trimmed around the soft crown with a twist of red crape have been introduced by swell hatters.

TYPOGRAPHICAL UNION LABEL MASSILLON No. 738

THURSDAY, APRIL 4, 1901.

More people are employed today in the United States than ever before in our history, and these people are individually and collectively working more days in the year and getting more pay for each day's labor than in any previous year or period.

For two years our customs duties have averaged $20,000,000 a month, nearly half the expenses of the government, exclusive of the postal department, which is nearly self sustaining. Our customs revenue was never so large and it is paid by those who can afford to pay it.

It is pointed out with melancholy truth by an English writer that trifling with the Anglo-Russian incident at the Tientsin railway siding will probably cost Great Britain at least £20,000,000 in hard cash. It was the news of the incident and the possibility of a conflict between Russia and Great Britain, it is now learned, which caused Gen. Botha's rejection of Gen. Kitchener's peace terms.

The instructions for Gen. MacArthur's guidance in determining what disposition to make of Aguinaldo show that the purpose of the administration is to avoid treating in any way with the latter as an insurgent. Aguinaldo as a loyal subject could later be treated with for the purpose of securing his assistance in restoring peace, and should his actions convince the authorities of his loyalty, the question of providing him with some office could then be considered. In the meantime Aguinaldo's attitude toward the United States will be closely watched. Consideration will be given any voluntary assistance on his part by the civil authorities, but it is evidently the determination of the President that his professions of loyalty shall not be secured by promise of office or other consideration outside the terms of the amnesty proclamation.

In the United States 3,856 books were published in 1900 as against 5,321 put out in 1899. This was the highest number reached in the history of American publishing. According to the Publishers' Weekly the quality of the books published in 1900 was distinctly better than it has been for three years past, notably in the departments of fiction, biography, fine arts and history. A special feature of the year was the re-issue of celebrated books in fine and carefully edited editions. Almost every author whose name has outlived the copyright restrictions has been put into attractive permanent form, and many American authors have edited their works for their publishers. The wars that marked the closing century brought forth a long list of books on South Africa, China, the Philippines and the West Indies; and there was a vast number of books of which the keynote was social problems, the wonderful inventions, and the great spread of educational privileges which have marked the century.

SUBSCRIBERS AND ADVERTISERS.

An examination of THE INDEPENDENT's books reveals the interesting fact that beside its large home circulation, the paper, either the daily or semi-weekly edition, reaches subscribers in France, Germany, South America, China, Mexico and the Philippine islands, as well as every state in the Union. This far-reaching circulation is only natural. THE INDEPENDENT is an old-established newspaper and former residents of Massillon, knowing that it prints all the news of the community, have it sent to them in order that they may keep in touch with Massillon interests. THE INDEPENDENT also has a fluctuating circulation among citizens who are away on business or pleasure and who read the paper every day as they would a letter from home, thus keeping themselves informed about every thing of importance which transpires during their absence. "I read even the advertisements when out of town," remarked a citizen recently.

While the reading of advertisements may perhaps not be directly profitable to people away from home and, therefore, in this instance an evidence of continued and absorbing interest in Massillon affairs, there are plenty of signs to show that INDEPENDENT subscribers do read and profit by advertisements continually. Advertisers take as much pains in preparing "copy" for their advertisements as does the telegraph editor in getting news dispatches ready for the printer. Once it was considered sufficient for a firm to publish its name and adapted the daily or weekly paper.

To anybody advertisements teem with information concerning fab-
on "egg roll
interesting an
all parts of W

rics, qualities, prices, special sales and unusual bargains, would-be purchasers being each day offered new chances to spend their money to its best advantage. No wonder the advertisements are read.

The prime object of THE INDEPENDENT is to furnish news. It has secured subscribers at home and abroad by giving people such a paper as they want. Gaining subscribers, it has gained advertisers. This is the formula of newspaper success and success is the necessary condition of further achievement

A MARKET FOR AMERICAN LUMBER.

In a recent report to the state department R. P. Skinner, United States consul at Marseilles, says that France presents a good market for American lumber. In his special district there is a scarcity of walnut logs for the manufacture of furniture and inquiries are sent to him for the names of American firms able to supply the timber. All of the American pine imported at Marseilles, Mr. Skinner says, is purchased from London middlemen. Efforts to buy direct have proved unsatisfactory, as French purchasers say United States exporters seem unwilling to conform strictly to contract specifications. The average cargoes received at Marseilles are worth about $20,000, and rather than take risks with American firms, which may be of limited capital, French buyers prefer to deal with the British middlemen at an advance of about 3 per cent.

Fully 80 per cent of all the American lumber shipped to England and the continent is handled by two London firms. These houses send agents direct to the American mills to supervise every detail of the lumber to its destination. Having unlimited capital these firms often advance money for one or even two years' time to American lumbermen and assume all responsibility to Marseilles buyers for satisfactory delivery. It will require persistent and well-directed effort on the part of American exporters to divert this trade from London direct to the United States, as it has been built up with great pains and rests upon a foundation of mutual confidence and esteem.

Mr. Skinner says that what is true of the lumber trade is more or less true of many other commercial lines. The growing tendency of our people to cut off commissions and operate direct should be encouraged, he adds, particularly in the lumber trade.

IS THERE ANYTHING IN SIGNS?

To the Editor of THE INDEPENDENT:

With the opening of spring will also commence the looking after signs in the constellations. The season of the year is now at hand for sowing clover seed, and it is supposed by those who have a strong faith in signs that to secure a good catch and to hold the clover down they must sow when the sign is down, and also in the sign of the Lion. Potatoes must be planted under certain good signs, otherwise they will not cook well or be an inferior yield. Shingle roofs must be put on when the sign is down so that the sun will not draw the shingles up. Rail fences must be built when the sign is up so the fence will not settle in the ground. Fence posts must be set when the sign is down, so the frost does not raise them up There are many other signs just as foolish. During my past life on the farm I have had a sign to go by that is better than all of the above: Plant and sow when the season is here and the soil is in good condition, especially guarding against working ground too wet for crops in the spring. Always look at the ground and not at signs A friend of mine commences to plow when the sign is up so that the ground will pulverize well. A few years ago he had the worst clodded field I ever saw. For several years I have noticed after sowing my clover seed when the sign was up and in the supposedly worst state of the constellations, for some reason I have been able to raise good clover and some seed to spare. I have no use for signs. CAMPCREEK FARMER.

The Holland Submarine Boat.

All of our readers are familiar with the Holland submarine boat, with which it is possible to go about completely under water. If the enemy have a big warship lying in a strongly fortified harbor, the boat can be submerged and make its way to the ship, place a powerful explosive under it, and blow it to pieces without appearing above water. While this boat secretly destroys ships of the enemy, Hostetter's Stomach Bitters likewise attacks and overcomes dangerous diseases. A few doses will give relief in any stomach, liver or blood disorder. The Bitters not only cure the sick, but prevent the well from becoming sick. It should be taken by all who need a strengthening tonic.

The Indian and the Northwest.

A handsomely illustrated book just issued, bound in cloth and containing 115 pages of interesting historical data relating to the settlement of the great Northwest, with fine half-tone engravings of Black Hawk, Sitting Bull, Red Cloud and other noted chiefs; Custer's battleground and ten colored map plates showing location of the various tribes dating back to 1600. A careful review of the book impresses one that it is a valued contribution to the history of these early pioneers, and a copy should be in every library. Price, 50 cents per copy. Mailed postage prepaid upon receipt of this amount by W. B. Kniskern, 22 Fifth avenue, Chicago, Ill.

"I had piles so bad I could get no rest nor find a cure until I tried DeWitt's Witch Hazel Salve. After using it once I forgot I ever had anything like piles." E. C. Boice, Somers Point, N. Y. Look out for imitations. Be sure you ask for DeWitt's. Chas. W. Cupples, 139 W. Tremont St.; Rider & Snyder, 12 E. Main St.

ENGINEERS ARE OUT.

Coal Hoisters Strike Monday Morning.

OPERATORS WILL MEET.

Will Endeavor to Reach Some Definite Conclusion—The Stand of the Miners will Not Become Known Until Tuesday, Today Being a General Holiday—Operators Say the Shut Down will Result in Little Less to Them.

With but few exceptions, the coal hoisting engineers of the Massilon district, in accordance with their announced intention, went on a strike at 6 o'clock Monday morning. At the office of the Ridgway Burton Company it is said that some of the engineers have refused to quit work, but the officers of the union declare that every man connected therewith is out. It is claimed that there are but two engineers in the district who are not members of the organization.

The real situation in the district cannot be determined until Tuesday. The action of the miners is important and nothing can be learned as to their intentions today, this being an interstate holiday, set aside for the celebration of the eight-hour work day victory. The miners have signed an agreement to work without cessation for a year, but few of the operators expect them to work during the engineers' strike, even though competent successors to the strikers should be placed in charge of the engines. Foremen and superintendents are seeing to the operation of the engines, pumps and fans today.

President Howells, of the Operators' Association, was asked Monday morning whether it would not be necessary for the men who will have charge of the engines to have certificates granted by the state examining board. "I presume under the law that anyone hoisting coal must have a certificate," replied he, "but so far as our company is concerned we do not intend to do any hoisting. No operator has probably made up his mind as to what course he will follow. We will hold a meeting this week, and then the situation will be gone over and definite action taken. We were not positive that our engineers would strike until Sunday, when we were notified by their president that they intended so to do. Consequently we have had no time in which to prepare our plans.

"I would not venture to say anything as to what the miners will do. It is a very delicate thing to say. If the determination of the operators is to shut down indefinitely it would prove to the engineers one fact that is certain and sure—that the operators can live as well as they. In the end the greatest sufferers would be the laboring classes. I trust that matters will not reach this point, and I do not wish to be construed as advocating anything of this kind, but the experience of men fifty years old in the district has shown that to be the case."

Mr. Howells says that the loss to the operators by a suspension would not be material. "Trade is very dull," said he, "though of course we should like to be in a position to take advantage of what little there is, both for the sake of the miners as well as ourselves."

The operators say that the miners and engineers are endeavoring to take advantage of their helpless position. At most of the mines there must be men to see that the pumps are operated properly. To stop pumping for a short time in some instances would result in a mine being flooded. One operator, however, says that rather than accede to the demands of the engineers he would shut down the mine completely, and allow it to fill with water. It happens that in this case the water can be pumped out in a week or a little more. At some of the other mines several weeks or several months might be required.

TO OBTAIN THE FACTS.

T. F. Geltz to Represent the Operators in an Investigation.

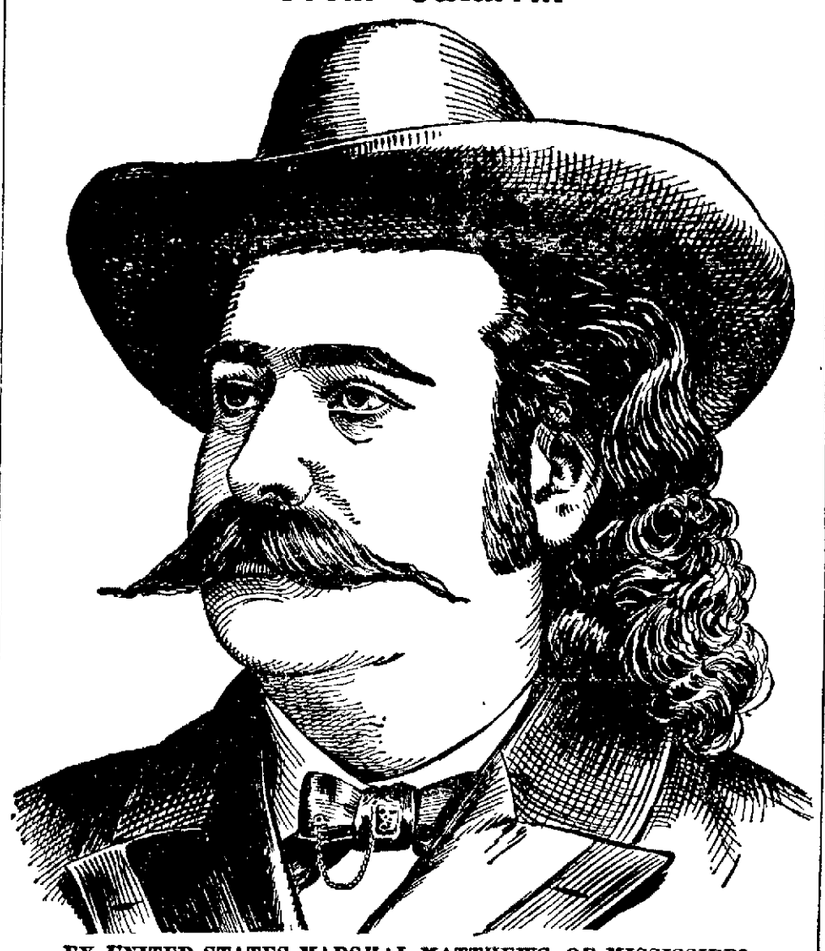
The scale committee of the Tuscarawas coal field, at the Saturday afternoon meeting, in Canton, adopted a resolution by which the present pick mining scale is to be continued for another year, and for the appointment of a joint subcommittee, consisting of Theodore F. Geltz, of Massillon, and F. McIntosh, of New Philadelphia, representing the operators, and W. H. Haskins, of Columbus, and Alexander Smith, of Mineral City, state president and sub-district president of the miners' union, respectively, whose duty it shall be to examine the weigh sheets and pay-rolls of the Davis Railroad Lindentree mine for the last six months to ascertain the earning power of machine runners, shooters and loaders. Upon the facts thus obtained, a machine scale will be based. All mines in the district are to continue in operation at the present prices until May 1. The sub-committee is to make its report at the earliest possible time prior to that date.

Spring coughs are specially dangerous, and unless cured at once serious results often follow. One Minute Cough Cure acts like magic, It is not a common mixture but is a high grade remedy. Chas. E. Cupples, 139 W. Tremont St.; Rider & Snyder, 12 E. Main St.

"Last winter I was confined to my bed with a very bad cold on the lungs. Nothing gave me relief. Finally my wife bought a bottle of One Minute Cough Cure that effected a speedy cure. I cannot speak too highly of that excellent remedy."—Mr. T. K. Houseman, Manatawney, Pa. Chas. W. Cupples, 139 W. Tremont St.; Rider & Snyder, 12 E. Main St.

A UNITED STATES MARSHAL

Thanks Peruna For His Rapid Recovery From Catarrh.



EX-UNITED STATES MARSHAL MATTHEWS, OF MISSISSIPPI.

Hon. S. S. Matthews, ex-United States Marshal of Mississippi, in a recent letter to The Peruna Medicine Company of Columbus, Ohio, written from Hazelhurst, Miss., says:

"I am happy to say that I am cured of catarrh and need no more attention from you. It is a great satisfaction that I am able to write you that Peruna has in my case done all that you claim, and that I will need no more medicine."

The great multitude take this remedy without any other advice than the directions to be found upon the bottle and in the pamphlets. There are those who prefer, however, to correspond with Dr. Hartman during their sickness. To all such he will make prompt and careful answer without charge.

Hon. J. F. Crooker of Buffalo, N. Y., who was for years Superintendent of Schools at Buffalo, in a letter dated October 16, writes:

"I have been a sufferer from catarrh six or seven years, and after trying many remedies, was induced by a friend to take Peruna. The results have been highly satisfactory. I take pleasure in recommending Peruna to any one suffering with catarrh, as my cure is complete.

Hon. J. F. Crooker, Sup't Buffalo, N.Y. Public Schools.

Hon. B. B. Dovinер, Congressman from West Virginia, in a letter from Washington, D. C. to The Peruna Medicine Co., says the following of their catarrh remedy, Peruna:

"I join with my colleagues in the House of Representatives in recommending your excellent remedy, Peruna, as a good tonic and also an effective cure for catarrh."

Mrs. Mary C. Fentress writes from Paradise, Tex., the following: "I think I can say that your good advice and medicine has cured me of chronic catarrh. I have had no pains in my head since I have taken Peruna. I have been in bad health ever since '59, and have taken a good many medicines which were only of temporary relief. Peruna is the catarrh cure. The Peruna stopped my catarrh of the head so that it did not become chronic, and I am very thankful for Dr. Hartman's advice and medicine."

Peruna is a specific for all catarrhal diseases. It acts quickly and beneficially upon the inflamed mucous membrane thus removing the cause of catarrh.

Catarrh is catarrh wherever located. Catarrh is essentially the same everywhere. The remedy that will cure catarrh in one situation will cure it in all situations.

Address The Peruna Medicine Co., Columbus, Ohio, for a free book.

MINERS ARE IDLE.

No Attempt Made to Resume Operations.

FOREMEN AT THE LEVERS.

Engineers Offer no Word or Suggestion to Their Former Employers—The Solicitor for Strikers Finds Himself Soliciting from Strikers—About $100 Has Been Raised.

The mines about Fox lake have not been heard from, but those of every other part of the district are idle. At most of them no miners reported for work. The engines, pumps and fans are cared for by the foremen, superintendents and others usually referred to as the "company's men." The strikers have not been near the mines since they left their engines Monday morning, and they have made no propositions to the operators. They stand pat for an eight-hour workday and a wage scale of $1.90 to $2.15.

The operators are still without definite plans. Some of them continue to advocate the shutting down of the mines completely until the engineers are ready to come to their terms, and others are in favor of doing anything but that. The operators claim that in the Jackson field, whose vein corresponds somewhat to that of this district, the men do not enjoy the conditions existing here, and to grant this further concession would be a tacit acknowledgment of weakness, they think.

MR. MOSELY'S SUCCESS.

F. J. Mosely, the representative of the striking miners of Thackers, W. Va., is in a quandary. He has been very successful in his work thus far, and he should have liked to go ahead with it, but the strike of the engineers and the enforced idleness of the miners makes it a case of soliciting aid from the unemployed for the unemployed. Mr. Mosely is not sure that he ought to do this. Contributions up to date aggregate $100. Each of the following local unions gave him $25: Central Mine No. 725; New Sandbank No. 643; Woodland No. 440; Gobbler's Knot.

PERSKY CLAIMED ASSAULT.

But He Was Unable to Prove His Case Before the Court.

CANAL FULTON, April 2.—Constable Samuel Persky, of North Lawrence, arrested his neighbor, Mr. Eckels, the other day, charging him with assault. Mr. Persky claimed that when he spoke to Mr. Eckels about an alleged indebtedness, the latter armed himself with a rock and threatened him with injury if there was any more talk of the kind Sufficient evidence to support the claim, however, could not be adduced, so Eckels was discharged by Squire Moulton Monday.

Pocket Map of China.

Latest indexed map of Chinese Empire, with enlarged map of portion of China where difficulty exists, and other valuable information relating to present crisis. Copy mailed on receipt of two cents in postage, by W. B. Kniskern, 22 Fifth Ave., Chicago, Ill.

He Kept His Leg.

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and 1½ boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. Z. T. Baltzly will guarantee satisfaction or refund money. Only 50 cents.

A Raging, Roaring Flood

Washed down a telegraph line which Chas. C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had consumption and could not live Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for coughs, colds and all throat and lung troubles by Z. T. Baltzly. Price 50c.

Job Couldn't Have Stood It

If he'd had itching piles. They're terribly annoying; but Bucklen's Arnica Salve will cure the worst case of piles on earth. It has cured thousands. For injuries, pains or bodily eruptions, it's the best salve in the world. Price 25c. a box. Cure guaranteed. Sold by Z. T. Baltzly.

You will waste time if you try to cure indigestion or dyspepsia by starving yourself. That only makes it worse when you do eat heartily. You always need plenty of good food properly digested. Kodol Dyspepsia Cure is the result of years of scientific research for something that would digest not only some elements of food but every kind. And it is the one remedy that will do it. Chas. W. Cupples, 139 W. Tremont street, Rider & Snyder, 12 E. Main St.

Trust Those who Have Tried.

I suffered from catarrh of the worst kind and never hoped for cure, but Ely's Cream Balm seems to do even that.—Oscar Ostrom, 45 Warren Ave., Chicago, Ill

I suffered from catarrh; it got so bad I could not work: I used Ely's Cream Balm and am entirely well.—A. C. Clarke, 341 Swannut Ave., Boston, Mass.

The Balm does not irritate or cause sneezing. Sold by druggists at 50 cts., or mailed by Ely Brothers, 56 Warren St., New York.

You cannot enjoy perfect health, rosy cheeks and sparkling eyes if your liver is sluggish and your bowels clogged. DeWitt's Little Early Risers cleanse the whole system. They never gripe.—Charles W. Cupples, 139 West Tremont street; Rider & Snyder, 12 East Main street.

CLOVER HILL MINE

It is Idle Today, But Was Operated Tuesday.

THE ENGINEER WORKED.

Finally, However, He was Prevailed Upon to Join the Strikers—Meeting of Operators Resulted in no Change in the Situation—Coal Famine Threatens.

The members of the Massillon District Coal Operators' Association, at the Tuesday afternoon meeting, again expressed their determination not to accede to the demands of their engineers. The meeting adjourned without definite action having been taken, however. Each operator will act for himself and as conditions at the various mines may require. The foremen and superintendents are in charge of the pumps at most of the mines. Pumping, in most cases, is done by day only. The water is allowed to rise at night.

The Clover Hill mine, near North Lawrence, was operated on Tuesday, but it is idle today. The regular engineer, David Rigler, was in charge of the engine Tuesday. Today, however, he was prevailed upon to join the strikers, and the miners refused to enter the mine with a new man at the engine. It is also reported that the mines in the vicinity of Fox lake are in operation, but authentic information cannot be obtained.

Nothing direct has been heard from the engineers by the operators since the announcement of the strike. The operators say they have no counter propositions.

From Navarre and other small towns in the district already there comes a complaint of a coal famine. Many people were unprepared for the cutting off of the coal supply, and they are now kept warm by the accommodation of less unfortunate neighbors.

'Tis Easy to Feel Good.

Countless thousands have found a blessing to the body in Dr. King's New Life Pills, which positively cure Constipation, Sick Headache, Dizziness, Jaundice, Malaria, Fever and Ague and all Liver and Stomach troubles. Purely vegetable; never gripe or weaken. Only 25c at Z. T. Baltzly's drug store.

Millinery

Ladies, call and see what we can show you in Fine Millinery. Our line of Trimmed and Untrimmed Hats is the finest ever shown, at lowest prices. Call and inspect our stock.

Miss M. E. Foster,

Cor Erie and Tremont Sts. Opp. Hotel Sailer.

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®

LOCAL HAPPENINGS.

Discovered this Week by Independent Investigators.

Born, to Mr. and Mrs. A. B. Bender, a son.

Mrs. J. J. Evans is visiting Justus relatives.

John Crawford, of New Brighton, is visiting his parents, Mr. and Mrs. R. B. Crawford, in East Main street.

Mrs. Oliver P. Hays, of Cleveland, is visiting her parents, Mr. and Mrs. William Kriyer, in West Main street.

Aaron Rubright has purchased the Wesley Graham stock of groceries and will reopen the store in a few days.

Theodore Kautzsch, of Cleveland, is in the city the guest of Mr. and Mrs. William Albright, in Wooster street.

Mrs. C. E. Sutton has gone to Galion, where she will be the guest of her parents, Mr. and Mrs. G. R. James, for several weeks.

Curtis Wade, lately engaged in the meat business in this city, is moving his family to Barr's Mill, where they will reside in the future.

President Blickensderfer, of the Wheeling & Lake Erie Railway, says there is no truth in the reported sale of the road to the Wabash.

A building permit has been issued to Meuser Brothers, who will erect a frame dwelling of seven rooms in North Erie street. It will cost $1,200.

The Seiberling-Miller works, recently destroyed by fire, will be rebuilt at Doylestown, the citizens having subscribed sufficient money to retain them.

Z T. Shoemaker has taken out a building permit for two frame dwellings, each of six rooms, to be erected in Wellman street. They will cost about $800 each.

Mr. and Mrs. George List have moved into their newly built residence in East Tremont street. The house vacated by the Lists has been rented by William Moke.

Another company is being organized to go deeper with the oil well at Barberton. The well is now down 2,425 feet and the new company proposes to put it down at least 1,000 feet deeper.

The regular monthly meeting of the trustees of the Fairmount Children's Home was held in Alliance on Tuesday, only routine business being transacted. The affairs of the institution were reported in excellent condition.

Three statues for St. Mary's church, presented by a late parishioner, arrived in the city yesterday from Chicago, where they were made. They will be erected in the church this week, and will be unveiled Sunday. The statues represent St. Peter, St. Paul and the Resurrection.

The Rev. Dr. J. I. Wilson will conduct services next Friday evening at the Calvary Presbyterian church, at Canton, which will be attended by Canton Commandery, Knight Templars, in a body. Massillon Commandery, Knights Templars, will worship in the Presbyterian church Sunday evening.

L. P. Schimke, of this city, has been reelected treasurer of the Central Ice Association, whose membership includes ice manufacturers of five states. Mr. Schimke recently returned from Youngstown, where he represented the Massillon Artificial Ice Company at the annual meeting of the association.

The local branch of the Brotherhood of Painters, Paperhangers and Decorators, Sunday, in the office of Squire Franz, completed its organization by making permanent the temporary officers recently elected. Peter Smith and Bernard Bell addressed the organization on the advantages of unionism.

Dr. J. H. Snively, of West Lebanon, called on his professional friends in the city yesterday. As a real estate speculation Dr. Snively recently purchased a farm south of the city. He has no thought of changing his place of residence, for his is accounted one of the largest and most lucrative of country practices.

Mrs. Lucy Clark was instantly killed at Barberton Tuesday. She attempted to crawl between two cars of a B & O. freight train standing near the depot. The train started suddenly, throwing Mrs. Clark under the wheels. Her body was completely cut in two and death was instantaneous. Mrs. Clark was 45 years old.

The Canton & Akron Electric Railroad company means business. It will begin the construction of its line at once and as an evidence of this it has advertised for 55,000 white oak ties to be delivered at Akron, Canton or intermediate points on C., T. & V. or Canton & Akron lines. The company expects to secure the necessary material in the vicinity of the proposed road.

The local branch of the United Commercial Travelers met Sunday afternoon in its room in the Sibila building, and elected the following officers for the ensuing year: George Yost, senior counselor; H. G. Deweese, junior counselor; F. R. Shepley, secretary and treasurer; Albert Loew, sentinel. Charles Johnson was selected to represent the branch at the state meeting to be held in Springfield in June.

The body of the man who was found dead west of the city Friday was sent to a medical college in Cleveland, Sunday, in accordance with a requisition served by the institution through the coroner upon Undertaker Higerd. After the body had been shipped word came from persons named Stansbury, residing west of the city, that relatives of the dead man lived in Louisville, O., and suggested that they be communicated with. Under the state law unclaimed or unidentified bodies must be held by the undertaker for thirty-six hours, and thereafter any medical college has the authority to demand possession of it for scientific purposes.

TIRED OF PROMISES

Railway Company Must Build or Step Aside.

SAYS THE FULTON COUNCIL

No More Sweet Nothings for the Metropolis of Lawrence Township—Navarre Republicans Win the Greatest Victory in History—News From Other Nearby Towns.

CANAL FULTON, April 3.—Councilmen expect daily to meet representatives of the Barberton, Doylestown & Massillon Electric Railway Company, who want an extension of the period in which the line was to have been completed. They have agreed that such a request shall be granted, but with provisions that will force the company to act promptly or forfeit all rights entirely. Canal Fulton is beginning to see itself much as Navarre saw itself during the period when the Canton-Massillon company was filling its ears with whispered sweet nothings.

GREAT REPUBLICAN VICTORY.

NAVARRE, April 3.—In this overwhelmingly Democratic village, four Republican councilmen were elected Monday, thereby being scored the greatest victory in the history of the town. The new council will have a Republican majority. Mayor Warwick, Democratic, is president ex-officio of the body. The newly elected councilmen are ex-Mayor George Obenour, Levi Hair, H. Whisler and Samuel Smith, jr. A. W. Goshorn and Frederick Starbaugh, both Democrats, were elected to the board of education, making that body wholly Democratic. In the township fight, Phil Loew, D., was elected treasurer; S. A. Biddle, D., trustee; Alf. Hensel, R., assessor for precinct B; I. B. Swihart, D., assessor for precinct A; L. Yoder, D., ditch supervisor.

STANWOOD AFFAIRS.

STANWOOD, April 3.—The election passed off quietly at this place. Clark Oberlin was elected assessor of this precinct and Wm. Poorman road supervisor.

The Stanwood school began on Tuesday with Carle Mock, of North Lawrence, as teacher.

Some of the farmers have begun their spring plowing.

Work has been suspended at the Massillon Mining Company's new mine until the operators and engineers have adjusted matters.

The Rev. W. S. Adams will hold services at this place on Friday evening, April 5, and communion services on Sunday, April 7, at 10 a. m.

Ray Oberlin has again taken up his studies at the Dalton high school after a week's vacation.

NEWMAN NEWS.

NEWMAN, April 3.—Henry Edwards has severed his connection with this vicinity, and his postoffice address hereafter will be Barberton, O.

The Misses Jeannie and Altie Pollock and Edwin Dixon, of North Lawrence, spent Sunday with Newman friends.

Mr. and Mrs. Theophilus Woodford, of Massillon, spent Sunday with Mr. and Mrs. D. E Rowlands.

Mr. and Mrs. Ira Fisher and Mr. and Mrs. Thomas Ramsey, of Massillon, visited with the Ralston family on Sunday.

Mr. and Mrs. Edward Ostenheimer, of Massillon, were the guests of the latter's parents, Mr. and Mrs. Joseph Griffith, last Sunday.

Christian Klien has established a milk route, and now passes through our village every morning.

The Misses Lottie Roderick and Viola Jenkins, of Massillon, visited their old homes and friends last Sunday.

The election on Monday was the quietest we ever held in this precinct. The only candidates the Democrats had on the ticket were McCadden, for justice of the peace, and William Fairless, for constable.

The brick works are busy improving their plant in order to increase their capacity for the coming season.

A pleasant surprise party was given Miss Emma Prosser last Wednesday evening at the home of her parents, Mr. and Mrs. John Prosser, before her departure for Canton, where she will take a course of studies at the Actual Business college.

DOWN AT WILMOT.

WILMOT, April 3.—The Bair farm, south of Dundee, is offered for sale. Frank Bair, of this place, is one of the interested parties.

Clement Robinet, of Winesburg, has moved to the Thurman Palmer farm.

Solomon Sauers passed through town on Thursday of last week, on his way to Orrville, where he has rented a farm for the coming year.

There will be many improvements made about the homes of our people this spring.

John Conkle and family will make Massillon their home from now on.

Oliver Ramsey and a few others are afflicted with sore eyes.

Christman & Hurraw are receiving a supply of buggies.

SHILLING'S DISTRICT NEWS.

SHILLING'S DISTRICT, April 3.—Mr. and Mrs. Peter Simon were called to Akron last Saturday by the illness of the latter's brother.

Ralph Graber, of this place, was in Wilmot on business the other day.

Levi Zaugg went to Wooster last Saturday on business.

Bills are being printed for the large public sale of Jacob Hofstetter, which is to take place April 9.

A number of people from this place attended the entertainment at the Chapel Saturday evening and report a good time.

Miss Lauretta Weirich and Curtis Weirich visited Emma Simon on Sunday.

Miss Susie Ricksecker, of near Elton, is at present with her brother, John Ricksecker, who has moved into the Hofacre property lately vacated by G. Cady.

Henry Kaley, of this place, is suffering with rheumatism.

URBAN HILL NOTES.

URBAN HILL, April 3.—The school election will be held next Monday evening. District No. 3 has one director to elect.

Prof. Armstrong, of Canton, will lecture at No. 3 on Friday evening.

The health of John W. Myers is somewhat improved.

A great crowd attended the entertainment at No. 4 last Friday evening. It was a success.

James Miller and Elmyra Buttermore, of No. 3, were granted certificates at the last Boxwell examination.

Carleton Mock opened his school at Stanwood on Tuesday.

There will be quarterly meeting services at the chapel on Saturday and Sunday next, the Rev. Mr. Siffert filling the pulpit.

William Philpot, the postmaster, has moved his effects into the city hotel, which he has purchased.

Antony Hall is having his dwelling enlarged. Charles Lawrence has the contract.

William Kurtz now occupies the premises vacated by Frank Kurtz, who has moved on his own property, the McDowell farm.

Benjamin Jones, who had no opposition as a candidate for township trustee, went in with a "whoop."

William Dittmar moved his family to Canal Fulton on Saturday.

MUDBROOK ITEMS.

MUDBROOK, April 3.—The Mudbrook school closed Friday with a picnic and a general good time.

Daniel Buffemeyer has moved to a farm near Canton.

Phil Ries moved to the Trish farm on Thursday. The young people of the neighborhood spent Tuesday evening there. All had a fine time.

William Werts and family have moved into the house formerly occupied by Phil Ries.

A surprise party was given in honor of Edward Buffemeyer on Thursday evening. A good time is reported.

The sinkers of the new shaft on the S. A. Conrad farm are making good progress.

Joseph Royer spent Saturday in Orrville on business.

A number of boys of this place attended an entertainment at Keefer's school Friday evening.

Mr. and Mrs. Joseph Royer spent Saturday and Sunday with their daughter, Mrs. Frank Felix, of Orrville.

Foster McClelland, who has been ill for some time with inflammatory rheumatism, is able to be out again.

BOLIVAR BRIEFS.

BOLIVAR, April 3.—Earl Fisher and Fred Kline have come down from Wooster for their Easter vacation.

Lloyd Nash, of Columbus, is visiting this parents this week.

The Y. P. S. C. E. social held at Yesper hall on Friday night proved a great success.

Mrs. Card Randall, of Cleveland, is visiting her parents, Mr. and Mrs. J. F. Evans.

Mrs. Mary Hoyh, of Zoar, visited relatives at this place Sunday.

Mr. and Mrs. Louis Zimmerman and little son, of Zoar, visited John Haglock and family on Sunday.

Mrs. J. E. Helwick and children returned on Sunday from a two weeks' visit with her parents at Canal Dover.

The concert and drill, which will be held at the Lutheran church on Monday evening, April 15, is expected to be largely attended, as neither time nor effort have been spared to make it the best ever given.

OUR BROOKFIELD FRIENDS.

WEST BROOKFIELD, April 3.—In the M. E. church Easter morning, there will be Sunday school at 9:30 a. m., preaching at 10:30 a. m., after which there will be an opportunity given to any who may desire to unite with the church, either by letter or on probation; Epworth League at 7 p. m.; subject, "Dead to Sin, Alive to Christ.

Miss Thomas, of Beech Grove, will give an elocutionary entertainment in the Lutheran church, Saturday, April 6. The church will furnish the music.

Mrs. G. A. Ralston and her sister returned from Pennsylvania last Thursday.

Mr. Rayot and family, of Marlboro, have moved into Mr. Minick's house, where they will reside until their residence is built on their own lot across the street, where they have already erected their barn.

The following families moved on April 1: Mr. Swihart who lived on S. R. Miller's place, has moved near Stanwood. Mr. Hardgrove moved from southeast of town into his own home, formerly Mrs. Ida Brain's property. Mr. John Kelly moved from Mrs. Hodgson's house to Navarre.

NORTH LAWRENCE JOTTINGS.

NORTH LAWRENCE, April 3.—Born, to Mr. and Mrs. Robert Livsey, a son.

George Pollock expects to move his family to the Stanford property, lately vacated by John Williams.

Mr. and Mrs. Elmer Dehoff, of Newman, spent Sunday with Mr. and Mrs. John Gorman.

Mr. and Mrs. Louis Rippel and children spent Sunday with relatives in Massillon.

Twenty pupils from R. O. Ellis's school visited Wade Miller's school, north of town on Friday.

The Rev. William Williams preached in the U. B. pulpit Sunday evening.

Mrs. Wm. Williams, an old resident of this place, has gone to Bellaire, O., where she will make her future home with her daughter, Mary.

Quite a number of our young people attended the entertainment given by the commencement class at Massillon last Friday evening.

Mrs. John McGinnis spent Sunday with her sister, Mrs. McGrill, in Massillon.

Mrs. Edward McCarty spent Sunday with her sister Rachel, in Canton.

William Moore, ex-mine inspector, has taken a position as superintendent in the New Philadelphia district.

William Philpot has moved into the property he lately purchased from Herbert Venables, known as the City Hotel.

The law suit between S. Persky and R. Mossop for assault was settled at Canal Fulton on Monday by Persky paying all costs.

CAMPCREEK NEWS.

CAMPCREEK, April 2.—John Smith moved his personal property from the Chapman to the Shisler farm last Thursday. Mr. Smith purchased the latter several months ago, and will reside there in the future.

The protracted meetings, which were conducted at the Cross Roads church by the Rev. Mr. Berry and the Rev. Mr. Adams, were brought to a close last Thursday evening.

Elton Warstler, of Justus, and Miss Ola Keller, of this place, were married at the home of the bride's parents last Thursday evening by the Rev. Mr. Berry.

The Cross Roads school closed last Friday. Many visitors from various school districts were present. The entertainment, which was held during the evening by the scholars, was well rendered, much to the credit of Mr. Plouts, who was instructor during the winter term.

Mrs. Jacob Poorman is ill with a very severe attack of rheumatism.

The scholars of the Goat Hill school will hold an entertainment Thursday evening, April 24.

Henry Lonas, sr., is dangerously ill.

Joseph Sprankle, of New Bedford, has recently been employed by John Collier as a farm hand for the coming summer.

Mrs. Laura Houston, of Leetonia, is visiting friends and relatives in this vicinity.

The Best Things To Eat

ARE MADE WITH

ROYAL Baking Powder

Hot-breads, biscuit, cake, rolls, muffins, crusts, puddings, and the various pastries requiring a leavening or raising agent.

Risen with Royal Baking Powder, all these foods are superlatively light, sweet, tender, delicious and wholesome.

Royal Baking Powder is the greatest of time and labor savers to the pastry cook. Besides, it economizes, flour, butter and eggs, and, best of all, makes the food more digestible and healthful.

The "Royal Baker and Pastry Cook"—containing over 800 most practical and valuable cooking receipts—free to every patron. Send postal card with your full address.

There are cheap baking powders, made from alum, but they are exceedingly harmful to health. Their astringent and cauterizing qualities add a dangerous element to food.

ROYAL BAKING POWDER CO., 100 WILLIAM STREET, NEW YORK.

DAMAGE BY STORM

Heaviest Snow Fall in Years at Pittsburg.

TRAINS GREATLY DELAYED

More Than a Foot of Snow in Pennsylvania, and the Storm Still Raging—Ohio Man Who Embezzled Funds of Brotherhood of Railway Trainmen Under Arrest in Kentucky.

PITTSBURG, April 3.—[By Associated Press]—One of the worst snow storms ever experienced here began this morning early and telegraph, telephone and trolley car service soon became practically suspended. Miles of poles are down, making the streets a net work of wires. The money damage will be heavy.

Trains are stalled at various points between East Liberty and Huntington, and the dispatchers are unable to untangle the confusion. The snow in the mountains is from twelve to fifteen inches deep, and a complete blockade is threatened. The Buffalo and Allegheny division is in almost the same condition, and trains are from forty minutes to two hours late. On the main line of the Pennsylvania the block signals refuse to work, and melting snow is turning streams into torrents. The Pennsylvania lines west are reported in fair condition.

Skin troubles, cuts, burns, scalds and chafing, quickly healed by the use of DeWitt's Witch Hazel Salve. It is imitated. Be sure you get DeWitt's.—Charles W. Cupples, 139 West Tremont street; Rider & Snyder, 12 East Main street.

Those famous little pills, DeWitt's Little Early Risers, will remove all impurities from your system, cleanse your bowels and make them regular. Chas. W. Cupples, 139 West Tremont street; Rider & Snyder, 12 East Main street.

HE MAY RESIGN.

Governor Allen Has Finished Allotted Task.

WASHINGTON, April 3.—[By Associated Press]—While Governor Allen, of Puerto Rico, who sailed yesterday from San Juan on the Mayflower for Hampton Roads, has not formally submitted his resignation, so far as can be learned, his friends here would not be surprised if he decided not to return to Puerto Rico. Governor Allen went to Puerto Rico in May last at the personal request of the President, to set up the new civil government there and get it into good working order, with the distinct understanding that he was not to be asked to remain after this was done. The President and Secretary Hay are full of praise for the manner in which Governor Allen has executed his task. It is reported here that if Governor Allen declined to continue in office Secretary Hunt, late of Montana, will succeed to the place.

Officials here are inclined to believe the reported departure of Li Hung Chang from Pekin for Shanghai is true, and that it is because the emperor is displeased with his course in conducting the negotiations. It is thought his friendship for Russia is the cause of his retirement, and if so, Russia has lost a great advantage.

AN OHIO EMBEZZLER.

Requisition Honored by Governor of Kentucky.

LEXINGTON, Ky., April 3.—[By Associated Press] Habeas corpus proceedings were instituted here today to prevent a Springfield (O.) officer from taking to that city for trial C. H. Simpson, charged with embezzling the funds of the Brotherhood of Railway Trainmen. The requisition of Governor Nash had been honored by Governor Beckham. The hearing is set for this afternoon.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhœa. 25c a bottle.

Any one can Tell

The man or woman with an irritable temper, restless, fidgety movements, failing memory and lack of concentration is suffering from crippled nerves. The lines of care, the palid cheeks, the wasting flesh, the dark circles under the eyes tell all too plainly of the worry, the pain, the loss of sleep and disturbed digestion, that break down the nervous forces and consume the vital power. For quick and sure relief nothing equals

"My trouble came on me gradually through overwork, lack of sleep and rest, and I suffered from constipation, stomach trouble, a fluttering of the heart, dullness, confusion of ideas, brain fever and nervous prostration. I was greatly reduced in flesh when I took my first dose of Dr. Miles' Nervine. In six weeks I gained eighteen pounds and felt hearty and strong." REV. I. V. MCCARTY, Anderson, Ind.

Dr. Miles' Nervine.

It relieves the pain, quiets the irritation, strengthens the overtaxed and weak digestion and feeds the worn-out brain and the wasted nerves. Try a bottle to-day.

Sold by all druggists on a guarantee. **Dr. Miles Medical Co., Elkhart, Ind.**

EASTER FASHIONS.

DELIGHTFUL MODES THAT REIGN IN HATS AND GOWNS.

Masses of Violets Form Entire Chapeaux—Affairs of Tulle and Roses. Blue Gowns With Silver Ornaments Are to Have a Run.

Every woman has about her these days an aplomb and quiet satisfaction which only the possession of a new hat, gown or something absolutely fresh for Easter can bestow. Of course one's gown and various accessories should be in their first appearance, if possible, but after all the brunt of the battle of fashion falls on the head—that is, the outward seeming of it. One might almost say, "Look after your head, and the rest will take care of itself." The milliners have made this easy and pleasant.

Spring colors are in the air in millinery. A vivid emerald green in combination with white and a touch of gold

GOLD AND BLACK, VIOLET VELVET AND TULLE.

that reminds one of the ardor of coming suns; white with that dash of black which gives distinction, and violet, lilac and purple tints mark the effects that have arrived for the season.

Of deceptive simplicity, as represented in the cut, is the uppermost hat, for in reality it is a dazzling confection of gold tinsel veiled with tucked black chiffon, partly lined under the brim with pink roses, with a large, flat bow of black ribbon at the back and a long gilt buckle in front.

Flattish hats are "in" for good, as the above specimen shows. The second figure exploits violet miroir velvet, that lovely deep tint which is never anything but becoming, the crown drawn and tucked and swathed all round with tulle of the same shade, and a long steel buckle across the front, the two feathers under the brim completing the alluringly soft effect of this daintiest of Easter fancies.

Many of the Easter hats are masses of flowers pure and simple. The violet hat, with both brim and crown composed of these spring blossoms thickly crowded together, is a typical fancy. Roses also bloom lavishly upon the spring millinery.

Tulle hats are in greatest evidence. Black or white tulle is combined with gorgeous roses, or it is used over gold or silver gauze. The broad, full turbans and gypsy shapes appear very largely just now. Pale pink, violet and yellow fine, fancy straws are combined with lace and various blossoms and foliage. Soft, crush pink roses form the crowns of lace and tulle confections.

In gowns grays are greatly to the fore, and the second cut shows one of gray cloth tucked and strapped. The

GOWN IN GRAY.

revers and cuffs are of black velvet embroidered with gold, the waistcoat white cloth. The stylish watch fob is shown, and the whole is an example of one of the most elaborate spring productions.

EGG TOYS FOR EASTER.

Humpty Dumpty—The Rabbit or Hare—A Pretty Cradle.

No child's Easter basket or nest is complete without a candy egg. Blow a goose egg, gild the shell and letter across one side. The egg is filled with gilded or bright yellow candies, and a piece of gold paper is pasted over the opening. Amusing little rocking or floating toys may also be made from eggshells. Place the eggs upright on the round end and pour in melted sealing wax, then melted lead, taking care to hit the center of the egg, or the balance will not be obtained.

Humpty Dumpty is droll. Paint his face and hair and make him a pointed white paper cap with turn up red brim to paste over his cracked head. Then paint a short white jacket and baggy trousers on the egg. Collar and pockets are red, as are also his slippers. Master Humpty's hands are thrust into his pockets.

Pierrot and Pierrette are a quaint little couple and will prove the most fascinating of toys. Both are dressed in white crape paper. Pierrot's ruff is very full, and little lozenges of red paper should be pasted down the front of his jacket and on his sleeves. His skullcap is red. Pierrette has frilly skirts, a ruff and peaked cap. These little figures would give a very attractive touch to a white enameled candy box.

The rabbit or Easter hare must not be forgotten. The egg is very easily transformed into this little animal by the addition of a pair of paper ears. Bunny may either sit upright on his hind legs or lie crouched on the ground. An owl is also amusing. After painting the egg like the breast of the bird add a paper beak and a pair of wings.

The torpedo boat that floats is sure to please the patriotic small boy. Make a hole in the middle of the side of the

HUMPTY DUMPTY—PIERROT AND PIERRETTE. THE CRADLE.

egg and pour in sealing wax and lead. Paint a row of portholes around the egg and glue on a bow and stern cut from a cigar box. The smokestack is made of black cardboard and the railing of wooden toothpicks glued in a circle of cardboard, which slips over the smokestack and is kept in place with a touch of glue. A union jack and ensign fly from toothpicks. If a needle is put into the bow, the boat can be drawn through the water by a magnet. A whole fleet of boats can be thus made and maneuvered.

For the little girl's dollhouse is an eggshell cradle. If the maker is skillful, it can be cut in one piece from the egg. Pasteboard or wooden rockers are glued on and the cradle fitted with mattress, pillow and silken spread. The outside of the cradle is decorated fancifully with lace and gold paint. It is needless to add that a small doll clad in its "nightie" should repose beneath the covers. These are among suggestions in Good Housekeeping for some "cute" egg toys.

Old Fashioned and Unequaled.

For a general restorative for the hair there is nothing ever compounded that equals old fashioned sage. Ask your grandmother about sage tea, advises The Ladies' World. As this is an age of improvement, the extract of sage is superior to the tea, for the reason that it does not sour; also water cannot properly extract the strong properties of sage. Get four ounce packets of dried sage from any drug store. Put it into a pint of rainwater and a pint of alcohol. Let it stand for a week. Stir occasionally and strain through swiss or tarlatan. This is sage extract. Retain your leaves and put with it two quarts of soft water; boil down to a quart. Mix it with the extract and add ten drops of nutmeg oil and a dram of tincture of cantharides. It is an unfailing remedy for hair that is prematurely turning gray, besides having a fine tonic effect upon the hair follicles.

Remember, soft brushes should be used during the growth of new hair. Persistent parting will thin out and in time make an unsightly bald streak if not frequently changed. It rests the hair to change it.

Don't use hairpins of the cheap steel variety. They ought to be relegated to the oblivion of the wire hairbrush. Rubber hairpins, blunt and very smooth, are best. If from perspiration they become harsh, discard them as unfit.

Fashion's Echoes.

Sashes of all kinds and descriptions will be a feature of summer dress.

Peonies and large silk poppies have made their appearance in millinery.

Gold buckles, with embossed leather figures on them, fasten some of the leather belts.

Single faced velvet ribbon is one of the trimmings for foulard gowns. It is stitched on at the upper edge.

Brussels net with a scalloped edge, a hemstitched border or a crape band makes the most becoming of mourning veils.

In doubt about the neck finish of a decollete corsage decide at once upon a straight scarf fichu if you want to make sure of smartness.

SPOILED THEIR RAID.

THE CADETS HAD A LAUGH AT THE OFFICERS' EXPENSE.

How a Billiard Table Was Smuggled Into the Barracks at West Point and the Story of Its Accidental Discovery.

There are many traditions and stories of escapades at the Military academy at West Point that are handed down from class to class, and one of the most interesting of these is that relating to the billiard table. Shortly after the civil war the cadets, always on the alert for some new scheme for amusement, decided that they would like to have a billiard table and accordingly organized a billiard club. A collection was taken up with which to purchase a table, and a suitable place was sought in which to set it up. Until the present steam heating apparatus was installed in the cadet barracks, about 30 years or more ago, the heating was by means of furnaces. The basement of the sixth division of the barracks was used for coal bins, the bins being so arranged that there was a large one near the center of the building, which could only be reached by passing through one of the others. After considering all available places this coal bin was finally selected as being the place least liable to detection, for it must be remembered the table was unauthorized.

The table was bought in New York and sent to Garrisons, across the river, for there was no West Shore railroad in those days. One cold winter night it was hauled by a team of oxen across the river on the ice and up the hill and was safely stowed away in the coal bin before morning. The table was soon set up and became a source of great enjoyment to the cadets. A keg of beer was always kept on tap, and lamps were hung from the ceiling, giving the room a cheery appearance. The members of the club used to gather there at all hours of the day and night, when their presence was not required elsewhere by their duties, and sit around smoking, drinking and telling stories while two of them played billiards.

The authorities soon became aware that there was a billiard table somewhere in the barracks, for they could hear the balls clicking together, but they could not find it. The cadets continued to enjoy the privileges of the billiard club for more than a year.

Finally one night soon after midnight, as two officers were returning from a convivial evening at the mess, they saw two cadets, clad in their underclothing and dressing gowns, emerge from the north sallyport and disappear down the steps to the areaway in front of the barracks. Instantly the thought of the billiard table flashed through the minds of the two officers, and they started quietly after the cadets. On reaching the basement doorway of the sixth division the two cadets entered, and the officers, arriving a moment later, saw them climb over a pile of coal and enter an open door, through which came sounds of laughter and conversation and the clicking of balls, while the air was laden with fragrant tobacco smoke.

The officers paused for a moment and held a whispered consultation. Finally deciding that they would tell the other officers of their discovery and have all of them come down the following night and enjoy the fun of a raid on the club, they withdrew and went home. Next day all the officers at the post were informed of the discovery, and it was arranged that the raid should occur at midnight.

All might have gone well, and the officers might have had their little fun, had it not been that there were three cadets the previous night instead of two. The third had forgotten his pipe and had gone back for it, while the other two went on and were discovered by the officers. The third, coming along a moment later, saw the officers and quietly followed them, observing all their movements and listening to their whispered conversation.

When they withdrew, he went in and told the members of the club all he had heard and seen. The cadets at once realized that it was all up with the club, but they determined to have a laugh at the expense of the officers. Accordingly all arrangements were made before the club adjourned that night.

The next night the officers met as arranged and crept stealthily down the areaway and into the sixth division. Hearing no sound of clicking balls, some became skeptical and concluded the whole thing was a hoax, but nevertheless they pushed on and climbed over the pile of coal. Opening the door, they were greeted with a glow of light, but still no sound. On entering they found the room deserted, but there were the billiard table, an almost untouched keg of beer, several pounds of tobacco, some chairs and lastly a note on the table, addressed to the officers on duty at West Point. The note was to the effect that as the officers of the post had been so kind as to permit the club to continue its existence for more than a year it desired to present to them (the officers) the table and all its appurtenances, as it was deemed expedient to wind up the club's affairs. The note was signed "The Executive Committee."

The officers, of course, were much chagrined at being thus outwitted by the cadets. Nevertheless the table was removed to the officers' mess and, according to tradition, is the one still in use there.—New York Tribune.

NEW TYPE OF STEAM YACHT

Henry Clay Pierce's Deep Sea Cruiser a Departure.

The new yacht now building at Nixon's shipyard, Elizabethport, N. J., from designs by Gardner & Cox for Henry Clay Pierce of St. Louis has been designed for deep sea cruising exclusively. Her plans call for a boat 258 feet long, 30 feet beam, 20 feet depth of hold and 14 feet draft.

This boat is a departure from the accepted type of American steam yachts and will resemble in outward appearance Eugene Higgins' Varuna, says the New York Tribune. Mr. Pierce's requirements are for a boat to have a speed at sea of 14 knots and 6,000 miles' steaming radius without recoaling. The boat will be about 1,000 tons displacement and have a free board of 18 feet forward, with a continuous hurricane deck. She will be twin screw, with two four cylinder triple expansion engines and two Scotch boilers, with a working pressure of 200 pounds, the horsepower being about 2,400.

On the main deck forward will be the dining room, finished in carved teak. The library is to be finished in Circassian walnut, with carved bookcases, divans, table and chairs to match. Aft of this is the lobby, with stairs leading to the after and lower accommodations, and aft of this the music room or grand saloon, finished in white mahogany and satinwood. On the deck above is the smoking room, finished also in Circassian walnut, fitted with writing desks and book shelves, to be used as a study for the owner's boys. Above this is the steering bridge, running out to the side of the vessel, fitted with steam steering gear, engine room telegraph, searchlight and a complete telephone system to all parts of the boat.

The owner's quarters are to consist of a large double stateroom, with a communicating bathroom, and opening into a study or office, both finished in white mahogany. All of the rooms throughout the boat are fitted with the latest electrical devices, such as electric curling irons, electric pressing irons, portable fans for artificial ventilation, and each closet throughout the boat is fitted with an automatic electric light, which shines when the door is opened and is shut off when the door is closed.

Her owner will make an extended foreign cruise when she is completed, including the waters of the Pacific in his itinerary.

SAND AND THE SUEZ CANAL.

A Plant That Is Preventing Sand From Filling Up the Channel.

One of the problems which have given the management of Suez canal much trouble is that of the sand that blows into it, adding to the dredging expenses. A considerable number of plants have been tried in the effort to fix the sands so that a comparatively small quantity would be blown into the canal. All of these plants have failed except one, which, it is now believed, will be quite effective in keeping the sand in place.

This large plant is the casuarina tree. It thrives in the southern hemisphere and grows well on the sand banks that skirt the Suez canal, says the New York Sun. It not only survives intense drought, but also excessive humidity, which is important, as the northern part of the canal is subject to inundations at some periods and droughts at other seasons of the year.

The roots of this tree penetrate the sand so deeply that they tap subterranean sources of water. Many of the trees planted 25 years ago have thrived so well in their new habitat that they are now over 40 feet in height. All who have studied the problem of sand fixation are certain that this tree will offer important resistance to the movement of sand along the canal. Steps are being taken to plant it extensively.

The New Coaster Brake.

The advent of the coaster brake has marvelously increased the usefulness of the wheel. One-third of the pedaling force is saved, and the danger of coasting steep hills is a thing of the past. The merits of the tire caster brake are proved by the experience of cyclists who have given it the most exacting tests of hard usage, says the Brooklyn Citizen. With the tire brake a slight backward motion of the pedals causes the brake spoon to be pressed upon the tire, a force easily graduated and controlled, according to the desire of the rider, to check the speed of the machine or bring it to a standstill. With the new hub brake similar motion causes a split expanding on the inner surface of a drum 2½ inches in diameter with precisely the same result. The distinguishing feature of this coaster brake is the split expanding, which has all the merits and none of the defects of the older forms.

Camden Police In Shirt Waists.

Mayor Hatch awarded a contract the other day for shirt waists for the Camden (N. J.) police force, and nearly 100 policemen were measured for them. The material is to be madras and of a color described as French blue, says the New York Sun. The shoulders are to be Raglan cut, the sleeves flowing to the elbow, a bit closer from the elbow to the wrist and fastened at the wrists by elastic bands. The bosom is to be plaited white linen. Down the front will be a row of six brass buttons, and around the neck is to be a rolling collar. The star is to be placed on the left breast. The policemen are delighted with the garments.

Japan as Mars.

Japan will probably have to fight the Anglo-Saxon for her life sooner or later, says the Boston Transcript, and the Russian sooner.

Kodol Dyspepsia Cure

Digests what you eat.

It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps and all other results of imperfect digestion.

Price 50c. and $1. Large size contains 2½ times small size. Book all about dyspepsia mailed free

TABLE CONCEITS.

ATTRACTIVE DINNER AND LUNCHEON ACCESSORIES.

Tempting Decorative Fruit Courses. Oranges Prettily Served—New Designs For Ice Cream—A Merry Jack Horner Pie.

For a luncheon, where the dishes are not as heavy as at a dinner, the fruit course may be very elaborate. There may suitably be a grape fruit, with the skin divisions removed and the pulp shredded. To this add a few white grapes, with the seeds removed, a slice of shredded pineapple, sweetened and chilled, the top garnished with

ROSE FILLED WITH ICE CREAM.

a few candied cherries. This fruit placed on a round piece of lace paper with gilt edges should be served on a small glass or china plate.

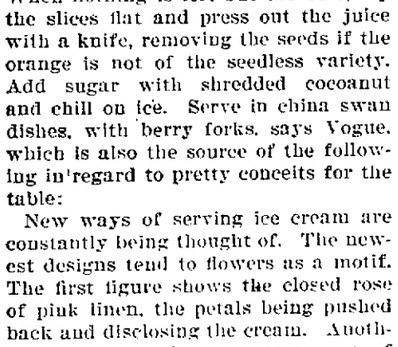
Another device is to cut an orange so that it resembles a basket with a handle, to which is tied a bow of white satin ribbon. The basket is filled with orange, pineapple and grapes shredded. Garnish, flavor and serve in the same manner. Any of these fruits should be in place as the guests enter the room. All of them make a most attractive decoration.

A pretty mode of serving oranges, that known as a la Cuban, is really the only method by which an orange is properly sliced, and as it is one used in all southern countries a description of it may be acceptable. Rest an unskinned orange on a plate and thrust a silver fork firmly through the top of the orange where the stem has left its mark. Hold the fork in the left hand and with an exceedingly sharp knife chip the skin, cutting deep enough to remove the white pulp at the same time. Continue until all the skin is removed and the round fruit with the juice is exposed. Remove it to another plate and continue cutting or slicing the fruit across the grain in the same manner as the skin was removed. When nothing is left but the core, lay the slices flat and press out the juice with a knife, removing the seeds if the orange is not of the seedless variety. Add sugar with shredded cocoanut and chill on ice. Serve in china swan dishes, with berry forks, says Vogue, which is also the source of the following in regard to pretty conceits for the table:

New ways of serving ice cream are constantly being thought of. The newest designs tend to flowers as a motif. The first figure shows the closed rose of pink linen, the petals being pushed back and disclosing the cream. Another rose design is an arrangement of petals around a small paper pannikin. The chrysanthemum is always a favorite.

Another conceit is to have the ice cream molded in the shape of a rose, say a tea rose, made of orange cream. Thrust through it is the artificial stem, with two sprays of green leaves. This whole piece is laid on lace paper over a gold or green plate. A mold sure to win much admiration is that of the bird's nest macaroons, holding eggs of various colored ice creams.

For some seasons past the Jack Horner pie has been a favorite as a means of distributing favors at a children's party or luncheon, but as a means of entertaining older folk it is a novelty, and at a smart dinner lately given it was the chief and most attractive feature. The second illustration gives but a faint idea of its dainty beauty. It was made of fluffy pink crape paper with strings of pink satin ribbon and tied round the middle with ribbon to match. A broader band of ribbon with a large, beautifully arranged bow would add much to the effect. The interior of this pie is filled with favors, and to each is attached a satin string. In some cases the strings are finished with a tiny full blown artificial rose.



JACK HORNER PIE.

Each guest pulls a string. Much merriment is created if the favor represents a harmless joke on the recipient, accompanied by a little rhyme which further explains the joke or tells of its appropriate significance, and each package should bear the name of the person for whom it is intended.

New Style Soup Plates and Spoons.

The old style soup plates are often superseded by the newer bowl shaped dish, smaller and deeper than an ordinary soup plate, with upward curving edges. This effectually prevents any of those fatal mishaps which do sometimes occur. Round bowled silver spoons are best suited to this style of soup dish. At a simple luncheon cream or clear soups are quite often served in bouillon cups set on plates.

EASTERTIDE SPREADS.

A Few Good Things—Sandwiches, Small Cakes and Sweets.

Young housekeepers are often confronted at the Easter season with the necessity of returning some of their many social obligations, and the thought that usually comes first to their minds is that of giving a tea or reception.

While it is certainly easier to give the entire charge of the spread for such an occasion to a caterer, it is by no means always the most satisfactory way.

Often the hostess who has but a limited purse by giving the matter a little study manages to have dainties and better things than where an expensive spread is served by a caterer. For the benefit of such are the following hints, which originate with Boston Cooking School Magazine:

It is far better to have a simple menu than to attempt elaborate things.

Sandwiches are necessary, and for these white, entire wheat and brown bread may be used. The bread should be a day old and very thinly sliced. If butter is to be used, it should be creamed before being spread upon the bread.

The Windsor filling is delicious for a hearty sandwich. For this mix equal quantities of chopped ham and chicken, with mayonnaise to moisten it. Spread on the bread, and place a crisp lettuce in each sandwich.

A mixture of equal parts of finely chopped hickory nuts and grated cheese seasoned with salt and cayenne is very good when spread between thin slices of buttered bread.

The meat of hard shell crabs mixed with mayonnaise makes an excellent filling.

The marguerites are pretty to serve on such an occasion. For these little cakes beat two eggs slightly, add one cup of brown sugar, half a cup of flour, one-third of a teaspoonful of salt and one-fourth of a teaspoonful of baking powder; mix well and add a cup of pecan meats cut fine. Bake in small fancy tins, decorating each cake with half a nut.

Small walnut cakes may also be used. To make these beat two eggs until light, add one cup of sugar, one cup of heavy cream and three cups and a half of flour, sifted with two teaspoons of baking powder and one teaspoon of salt. Stir into the mixture one cup of walnut meats. Chill the dough, then roll one-fourth an inch thick, cut with small round cutter and bake in a moderate oven.

Puff paste rolled thin, cut in small fancy shapes, delicately baked, and then split and filled with lemon, orange or cream filling, is a delicious sweet.

Burnt almonds may be used as a change from the salted nuts. Boil two cups of brown sugar and half a cup of water for three minutes. Add two cups of nuts and stir over the fire until the nuts are brown and well coated with caramel. Turn on to an oiled sieve to drain and cool.

Maple fondant, mixed with finely chopped walnuts and figs and then rolled on a sugared board, can be cut in inch cubes and served instead of bonbons.

Frappes are always acceptable, and the following combination is delicious when frozen: Boil four cups of water and two cups of sugar for 20 minutes; cool and add one pint of unfermented grape juice, two-thirds cup of orange juice and one-fourth cup of lemon juice.

To each cup of tea the addition of a preserved strawberry, with a little of its sirup, will be found most agreeable.

An Easter Dish.

Clip off the large ends of eggs, empty the contents and fill the shells with a blancmange made of one pint of milk,

BLANCMANGE EGGS IN APPLE SLICES.

two tablespoonfuls of sugar, half a teaspoonful of vanilla extract and two level tablespoonfuls of cornstarch wet with a little cold milk.

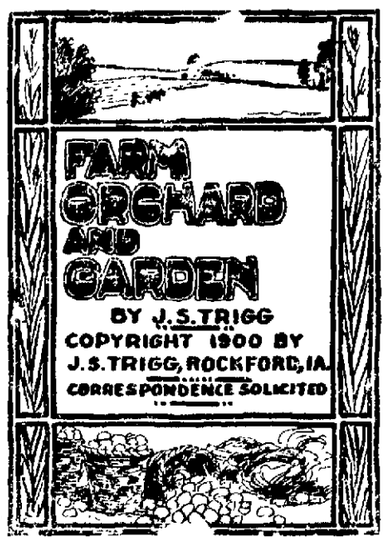
Pare and core tart apples, cut into inch slices and cook tender in a sirup. Drain and place on a plate to become cold. When the blancmange eggs are cold, remove the shells, place an egg in each apple and decorate with preserved cherries or strawberries. Serve with sweetened flavored cream.—Woman's Home Companion.

A Flower Sleeve Fad.

A very pretty flower sleeve for an evening dress worn by a smart young woman in New York is described by The New Idea Magazine. It was made entirely of violets and was worn with a violet crape and velvet bodice. There were three bands of violets sewed on pale green tulle to keep them in place, and hanging from the back was a narrow wreath of the same flower, which was fastened to the wrist by a bracelet of the blossoms. This is a fad which can have any sort of changes rung on it. Any small flower, such as forget-menots or rosebuds or lilies of the valley, can be used in the same way with excellent effect.

For a Trifling Gift.

What are called trifling birthday gifts for one's family circle of nieces and cousins belonging to the young set are stocks ties and belt streamers. The last two, being trimmed with ferrets of silver or gold, both for day and evening wear, have become the craze. Far from losing by their popularity these pretty adjuncts are in their place extremely modish. In jet and in passementerie manufacture they are being ordered a great deal for half mourning decoration.—Vogue.



Butter robs the soil less than any other product produced on the farm.

Men long engaged in professional or strictly mechanical pursuits can rarely make a success by taking up farming late in life.

We saw lately thousands of bushels of corn lying around the farms in great piles entirely unprotected because the cribs were all full and there was no place to store it. This in the heart of the corn belt.

The colored people of the south have not the least regard for the game laws of the states where they live and slaughter anything and everything in the way of game as well as our best song birds indiscriminately, in season and out of season.

The scientists have figured out that a man's earning capacity in the lines of unskilled labor is in this country about $1 and that the food needed to enable him to earn this dollar is worth 8 1-3 cents. While the man may be a hard worker to get this dollar, he is no high liver on this ration.

A motor mower made by an American attracted about as much interest at the late Paris exposition as any other machine exhibited. It did its work in the most perfect manner and attracted attention not so much in the line of its use as a mowing machine as in the possibilities connected with the use of gasoline motors applied to other lines of farm work.

The line of latitude which marks the limit within which the colored man will live also very closely marks the point where the horse begins to supersede the mule as a beast of burden. One may travel for days in Minnesota and Iowa and never see a mule at work on the farm and travel as far in Missouri, Arkansas and other southern states and never see a horse so employed.

It cost the sum of $225 to educate the lone scholar in a district school in Iowa this year. The teacher was hired, the room warmed, the taxes paid and the whole stupid farce carried out. Common sense would suggest that this solitary kid could far better have been carried at public expense to some neighboring school and its tuition paid. The centralization of these country schools where there are but two or three pupils is a problem which should receive more attention than it does.

The rocky and sterile hills of Maine while unable to supply any of the food used by the American people, still contribute their little offering annually in the shape of about 500 carloads of little spruce and pine trees for use at the Christmas festival. Like the woman of old, this sparsely endowed backwoods country gives all that it has, and its gift is none the less appreciated because it cannot be eaten or converted to practical uses. Any state which contributes something to the cause of a beautiful sentiment does as much for the country as though her gift were of gross and wholly material things.

THE MUSTARD PEST.

A friend asks us if wild mustard lives more than one year. It does not. It is an annual and if prevented from going to seed can be eradicated from the fields. It is likely that the seed of this plant, as with clover seed, may be turned over by the plow and lie dormant to later germinate when brought to the surface again. This pest was mostly introduced into the central west through the medium of foul flaxseed. Seeding down with clover and pasturing, summer fallowing or hand pulling from the grainfields when the bloom on the mustard reveals it are common methods of ridding the farm of it. The seed grain should be also very closely watched. It is the bane of all the flax growing districts.

RECLAIMING A DESERT.

Twelve million acres of the great Sahara desert in Africa have been reclaimed and made fruitful by means of artesian wells. This fact suggests very forcibly the importance of the national government's taking immediate and progressive steps in the line of reclaiming the fertile but waterless areas of this country either by artesian wells, water storage in reservoirs or by utilizing the waters of the great rivers. An acre of irrigated desert land is the most productive acre of land to be found anywhere. Men in their individual and corporate capacity can usually rid the land of its surplus water, but when it comes to the irrigation of large tracts only the government can successfully cope with the problem. The government could well afford, purely as a money speculation to spend $25,000,000 on irrigation projects, saying nothing of the untold benefit accruing by reason of such an extension of productive area.

The finest corn country of all the great corn belt is found on the Missouri river bottoms between Kansas City, Mo., and Sioux City, Ia.

The nice girl who is debating the proposition of whether she had better give up a $50 position for a $25 man had better resolve to die an old maid.

The neighbors' chickens, where one lives in a town, are almost always a prolific source of trouble when they are allowed to run at large. If you live in town and keep chickens, keep them shut up.

The salt supply in China is largely derived from the waters of the ocean and is held as a monopoly by the government, which derives an income of $50,000,000 a year from it. It retails at 3 cents a pound.

We rode recently 50 miles through the best portion of Nebraska and saw but just one clover field. The gospel of clover culture needs preaching in that state if anywhere. And this was in that portion of the state where clover will grow.

Ostrich feathers are scarce and high priced because of the African war. If American ladies are really patriotic and wish to do something for their country, they will start the fashion of using a dead crow or English sparrow for headgear trimming.

The use of sorghum sown thickly as a reliable rough forage crop is making great headway in the states west of the Missouri river. From three to five tons of dry fodder are secured from the acre, and it is proving exceedingly palatable to all kinds of stock. Its use might be extended into Iowa, Missouri and Minnesota with advantage.

If the subsoil where you wish to plant an orchard, or, for that matter, any sort of a tree, is of a hardpan texture, it is a good plan to drill a hole down six or eight feet and explode a charge of dynamite. This loosens up the hard subsoil and enables the roots of the tree to go down and thus protects the tree from the effects of drought.

A man can steal from a bank, a merchant or a corporation, but he can't steal from old Mother Earth on the farm. The soil may be robbed in a sense by being made to grow worthless products, but the man is never benefited thereby. A man may beat his friends and neighbors, but he can never beat his farm. It is always and ever true that whatsoever a man soweth that shall he also reap.

A curious feature of the loose soil of the Missouri river valley is its ability to resist the action of rain and frost. The railway cuts through the bluff lands bordering the river are none of them cut at a slope of less than 45 degrees and often much deeper, and still there is no sloughing or sliding caused by waterfall or frost. In texture this yellow soil is almost as tenacious as are the St. Peter sandstone deposits of the upper Mississippi valley.

Coffee substitutes—and there are a large number of them very extensively advertised—are harmless. For one thing analysis shows them all to depend mostly upon the sugar and cream taken with them for nutrition. If you want this sort of slop, take cracked wheat or barley and roast it just as you would green coffee, and you have got just as good a material for the morning beverage and at one-tenth of the price asked for the fancy coffee substitutes. Most any old settler in the west will tell you how they used to make that sort of coffee.

It seems that through the enterprise of some Iowa horticulturists in selecting and shipping the fruit the state of Iowa was awarded first prize on apples at the Paris exposition. The bare statement of this fact is apt to be misleading. The truth is that Iowa will and does produce some very choice summer and fall apples, perhaps as good as those of any other state, but when it comes to winter fruit—fruit which has long keeping qualities—Iowa is not in the same class with the seaboard states of the east or even Michigan, Washington or Idaho. Western New York still produces the choicest winter fruit in its Greenings, Baldwins, Kings and other favorite varieties. The Wealthy apple, grown so very successfully in Iowa, is nowhere excelled as a fall fruit, but the Iowa winter apple of choice quality is yet an unknown quantity.

SAVING AND WASTING.

Frugality is a term not even understood by the American people. Living in a country of almost boundless resources, cultivating a soil of almost unparalleled fertility, environed by opportunities for making money quickly and in a large way, the habit of frugality, which is such a distinctive national trait of the people of foreign countries, is here an unknown quantity. The want of it is responsible for very much of the business failure and poverty which we here find. A man walks into a saloon and thinks he must treat every man he knows who is present; the housewife, entertaining a few friends at a tea party, makes four or five kinds of cake when one kind is enough in all conscience; the young man wastes his salary in the vain effort to follow the lead of his fellows who do not know the real value of a dollar because they do not have to earn it. The want of frugality crops out in a thousand ways on the farm, in the store and office. The American people, given their head, are a nation of wild, reckless spendthrifts, whose only motto is to keep up with the procession at all hazards and "Let 'er go, Gallagher!" The man who goes this pace up to 40 need not complain if he tapers off at 60 on soup bones and oatmeal.

No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indescribable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

"My wife used several bottles of S. S. S. as a blood purifier and to tone up a weak and emaciated system, with very marked effect by way of improvement.

"We regard it a great tonic and blood purifier."—J. F. DUFF, Princeton, Mo.

SSS is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates through all parts of the system.

S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice wanted. No charge for medical advice.

HOUSES IN DEMAND

Dalton Cannot Accommodate Its Newcomers.

MANY MINES TO BE SUNK.

The Promise of Work Therein Has Attracted to the Village Miners From All Parts of the District—News From Elton, Sixteen, Smoketown, Crystal Spring and Other Near Towns

DALTON, April 4.—There is a great demand for houses at present. The new mines to be sunk near here have attracted to the town a large number of workmen, and every available house now has one or more tenants. Not many dwellings are being erected by local speculators, the cost of material being too great to warrant the success of such enterprise.

The Dalton Oil and Gas Company has decided to begin drilling June 1.

The winners of the township offices at the recent election were all Democrats. In the village the victorious were Republicans, except in the case of water works trustee, to which office W. J. Cameron, a Democrat, was elected The township winners are P. Eckert, trustee: D. F. Schultz, treasurer, A. Douglass, assessor: J. Harrold, justice of the peace; A. H Arick and E. Long, constables. In the town F. E. Gibson, A. Wiess and A. H. Owens were elected to the council. W. D Fletcher, cemetery trustee: F. P. Welty, street commissioner; L. B. Snodgrass and Thomas Culley, members of the board of education, and W. J. Cameron, water works trustee.

ELTON ITEMS.

ELTON, April 3.—Mr. and Mrs. Joseph Forney and Mrs. Samuel McFarren, of West Lebanon, were the guests of Mr. and Mrs. S. D. Baughman on Sunday.

H. R. Warner will survey the farm of H. I. and M. A. Baughman on Wednesday.

Miss Lizzie Williams, of Canton, visited her mother over Sunday.

Miss Bessie Rosenbery, of Navarre, was the guest of her cousins, the Misses Metta and Anna Ricksecker, last week, and attended the closing exercises of the McFarren school.

William Applebee, check weighman at Elm Run mine No. 4, will leave for the South on Wednesday.

William Crossland will organize a singing class at McFarren church on Saturday night.

The election passed off quietly. S. D. Baughman was elected assessor and E. M. Beck supervisor.

A petition is being circulated for another election on local option.

There will be Easter services at the McFarren church on Sunday, and a Sunday school convention in the evening. A good speaker will be present. There will also be good music

J. W. Baughman will finish his term of school at Swans on Thursday.

Mr. and Mrs. Harvey Bleeker were guests of D Baughman and family last week, Mrs. Bleeker having just returned from the funeral of her nephew in Indiana

UP AT SIXTEEN.

SIXTEEN, April 3.—Easter exercises will be held at the church Sunday afternoon, April 6 at 2 30 o'clock.

A carpet rag sewing was held at the home of Mrs James Douglass, Wednesday, but owing to the inclemency of the weather, few were present

Miss Bertha Ero spent Saturday and Sunday in Brookfield, the guest of her cousin, Miss Esta Lyons

Frank Baer, who has been suffering from a severe sore throat, is improving in health.

Several of our young people attended the entertainment given at the chapel Saturday evening.

SMOKETOWN NOTES.

SMOKETOWN, April 4.—Born, to Mr. and Mrs. Frank Engleman, a daughter. also, to Mr. and Mrs. Ervin, a son.

E. B. Lieghley and daughter Carrie, of Hartville, spent Sunday with Mrs. J. D. Lieghley.

The J. N. Trook sale was largely attended and every article brought a fair price.

Ervin Sterner has taken charge of the Peter Zinsmaster farm for the coming year.

Ernest Lieghley, of Canton, superintendent of the Stark Telephone Company, was in Smoketown on Sunday.

After a short visit with his parents, on Monday Logan B. Zinsmaster resumed his studies at the Cleveland medical college.

Mrs. Milford Linerode has purchased the Sarah May farm for $760.

Will Bashi has commenced his summer's work for N. W. Zinsmaster.

The Smoketown Sunday school organized with the following corps of officers: Superintendent, Frank Slichter: assistant superintendent, Sam Miskopf: secretary, Charles Maurer: treasurer, G. R. Jones; organist, Tessie Zinsmaster; chorister, Mrs Helen Johnson; librarian, Will Maurer: executive committee, E. E. Lenhart, Elmer Lieghley, Harry Carlin.

Charles Corell, of Bolivar, has taken a position as farm laborer on the Lieghley farm.

Sterner Brothers have purchased a new Robbins potato planter with fertilizer attachment

Superintendent E E. Lenhart conducted township examination last Thursday and Friday.

CRYSTAL SPRING LETTER.

CRYSTAL SPRING, April 3.—Joseph Nebel, of Canton, spent Sunday in town.

Wm. Preece on Monday succeeded Phil. Miesmer as clerk in the co-operative store. Mr. Meismer has opened a grocery in Canton. He will move his family to that place Wednesday.

Joe Blatt has gone to Buffalo, N. Y.

Lewis Brinyre has returned to Cleveland.

Prosecuting Attorney R. H. Day, of Massillon, was a recent visitor in this place.

August Stuhldreher, whose large barn was destroyed by fire last summer, is making preparations for the erection of a new one.

The postoffice has been greatly improved by a new cabinet of the latest style being placed in the building. The old one had been in constant use for nearly thirty years. The local office was established in 1872.

The Democrats as usual won the day in Jackson township last Monday, and elected the following persons to the various offices: Trustee, J. J. Zimbert; treasurer, J. B. Fierstos; ditch supervisor, H. W. Hinkle, road supervisor, Wm. Dunckly, assessor, Millport precinct Peter Miesmer.

The winter term of school closed last Friday. A successful course has been pursued by the scholars, due to the good management of the teachers, Ellsworth Crites, of Beach City, and Meta Housman, of Canal Fulton.

Advertised Letters.

MARKET TEMPESTUOUS.

Swept by Storm of Liquidation Tuesday Morning—Some of Features of Market.

New York, April 3.—Tuesday's stock market was tempestuous and uneven. It was swept by a storm of liquidation Tuesday morning which caused some violent declines and carried prices below Monday's level throughout. The bears did not seem disposed to pursue the contest in face of the character of support which they encountered. Earlier losses were largely recovered, but the late activity and strength of the market centered very largely in Burlington and Northern Pacific on a revival of reports of a transfer of control of the former. Burlington had sold down to 172½ on the realizing movement, but on the rally it gained headway on the belief that the terms offered to stockholders would be equivalent to 180, and the price crossed that figure by ½, and then fell back on realizing. Northern Pacific touched 97.

The same brokers who sold United States Steel so heavily Monday continued selling Tuesday. Probably not a little realizing was induced by the announcement which had been discounted, of the inclusion of the Lake Superior consolidated iron mines and the American Bridge company in the merger. The increase in the capital of $250,000,000 over that first contemplated also leaves a liberal margin to the account of the syndicate after the terms of the addition and exchange have been fulfilled. Dealings in the steel stocks continued in enormous volume. On the break Rock Island was handled with notable severity, being forced 2¼ under Monday night's close. The steel stocks were also conspicuous in the decline.

The money market was helped by the disbursement of government interest, the checks for which passed through the clearing house Tuesday and made the sub-treasury a debtor to that institution to the extent of $2,702,000 from the market since last Friday, notwithstanding a payment on account of a deposit of $750,000 in foreign gold made at San Francisco. Sterling exchange rates were slightly lower, but continental exchange hardened and additional gold exports are expected. The late rally was helped by the announcement from Washington that the secretary of the treasury had bought $2,000,000 of short term bonds in New York for the sinking fund, having received an offer which complied with his requirement that the bonds should be on a basis to make the investment return as high as that of the new 2s. This implies a figure below the market price of the bonds and does not seem likely to yield further large returns to the money market.

Home Seekers' Excursions.

On the first and third Tuesdays of each month the Chicago, Milwaukee and St. Paul railway will sell round trip excursion tickets from Chicago, Milwaukee and other points on its line to a great many points in South Dakota, North Dakota and other Western and Northwestern states, at about one fare. Take a trip west and see the wonderful crops and what an amount of good land can be purchased for a little money. Further information as to rates, routes, prices of farm lands, etc., may be obtained by addressing E. G. Hayden, traveling passenger agent, Cleveland, O.

SCHOOL BOOK QUESTION.

Efforts Being Made by Unionists to Bring Some Changes.

The committee of members of the local typographical union, to which was referred the matter of interesting dealers and citizens in the products of school book establishments employing union labor, reports much encouragement. It is the expectation of the committee that in another year all school books of non-union manufacture will have been disposed of by the dealers and that new purchases will include the union products only.

Members of the Trades and Labor Assembly state that the next legislature will be called upon to pass a bill providing for free school books. "We do not know whether the bill will give the authority for the purchase and distribution of the books to the state," said one of the officers, "or whether it will vest the boards of education of the various cities and districts with this power. But it is almost a certain thing that the school children will not be called upon to pay two prices for one book in the near future as in the past. All the larger cities are taking up this question, and its logical conclusion is assuredly the passage of such a bill."
